**Parents, Professionals and Mentally Handicapped People** Peter J. Mittler, Helen McConachie, 1983 *Parents, Professionals and Mentally Handicapped People* Peter Mittler, Helen McConachie, 1983 *Parents, Professionals, and Mentally Handicapped People* International League of Societies for Persons with Mental Handicap, 1983 *Working with Families of Children with Special Needs* Naomi Dale, 2008-03-07 The importance of partnerships between professionals and the parents of children with special needs disability is well established in childcare legislation But is it reflected in practice Written for practitioners and those in training this book recognises that forming partnerships can be a fraught process involving dissent as well as cooperation Naomi Dale draws on case histories from her own experience to examine key partnership issues such as consent confidentiality and diagnosis delivery She combines up to date theory and research with practice to provide a wealth of suggestions and ideas for effective family work *Working with Families of Children with Special Needs* features useful exercises with each chapter making it an excellent resource book and practice manual for multidisciplinary professionals **Parents and Young Mentally Handicapped Children** Helen McConachie, 2016-01-08 First published in 1986 this book reviews research on the role parents play in fostering the early development of children with mental handicaps Professionals and parents must work together to give such children the chance of living as ordinary lives as possible and here the author develops a broadly based conceptual framework for the involvement of parents as teachers of their young handicapped children McConachie identifies characteristics of parents which seem of particular relevance to the design and success of intervention programmes Although written in the 1980s this book discusses topics that are still important today **Overcoming Exclusion** Peter J. Mittler, 2013 Professor Peter Mittler brings together nineteen of his key writings in one place including chapters from his best selling books and articles from leading journals which give a flavour of the impact or controversy they aroused **Dictionary of Mental Handicap** Mary P. Lindsey, 2002-03-11 Over recent years the policy of isolating and institutionalizing mentally handicapped people has gradually been dismantled and a major shift to community care has taken place But integration within the general community and access to special services has greatly increased the number of people with a need to know about mental handicap Each profession or discipline has its own terminology nowadays one must be conversant with all of them In this comprehensive dictionary Mary Lindsey has brought together terms and concepts from a wide variety of fields Approximately 2 400 entries are included ranging in length from concise explanations to encyclopaedic essays but always expressed in clear simple language Where appropriate suggestions for further reading are made and possible sources of further information given An extensive system of cross references leads the interested reader further and makes valuable connections between entries The medical aspects of mental handicap its causes prognoses and treatments are of course covered in detail But although the cause of mental handicap may be medical subsequent interventions may be sociological psychological educational medical paramedical or psychiatric This is reflected

in the choice of entries making the Dictionary an invaluable source of reference for all those involved with mentally handicapped people in any capacity whatsoever    **Parliamentary Papers** Great Britain. Parliament. House of Commons,1984    Prospects ,1987    Mental Handicap Oliver Russell,1985    Behaviour Modification for People with Mental Handicaps William Yule,Janet H. Carr,1987    Parents, Teachers and Schools Cedric Cullingford,1985    **Issues and Approaches in Personal Construct Theory** Donald Bannister,1985    The Social Services Bibliography, 1980-1985 Max McMurdo,1985    Mental Handicap in the Community Alan Leighton,1988    Parent-Child Interaction and Developmental Disabilities Kofi Marfo,1988-06-24 This volume brings together original papers by international scholars and practitioners on the question of the effects of parent interaction with developmentally disabled children The contributors present evidence that the quality of parent child interaction differs in the families of disabled children and that this interaction may make the symptoms more or less pronounced For example a strong pattern of parent child interaction appears to reduce the disability in handicapped children even in cases of Down s Syndrome Many of the chapters pose provocative questions and provide insightful directives for future theorizing and research on family interactions involving developmentally disabled infants and children    An Ordinary Life in Practice David Towell,1988    **Prevention of Mental Handicap** Gwilym Hosking,Glynis Murphy,1987    Final Report, 1985-1990 University of Illinois at Urbana-Champaign.
