Franklin would remain in Paris for nine years returning to Philadelphia in 1785 Then in the first great period of American literature before 1860 literary pioneers such as Washington Irving James Fenimore Cooper Henry Wadsworth Longfellow Ralph Waldo Emerson and Nathaniel Hawthorne were all to spend time in the French capital Henry James toward the close of the nineteenth century was the first to create the image of a talented literary artist who was ready to foreswear his citizenship From his adopted home in England he traveled widely through Italy and France living in Paris for two years There he became close friends with another literary expatriate Edith Wharton who made Paris her permanent home Between them they gave the term expatriate a high literary polish at the turn of the century and their prestige was undeniable They were the in cosmopolitans sought out by traveling Americans commented on in the press the favored guests of scholars as well as men and women of affairs This thesis investigates the mass expatriation of Americans to Paris during the 1920s and then focuses on selected works by two of the expatriates Ernest Hemingway's *The Sun Also Rises* 1926 and F Scott Fitzgerald's *The Great Gatsby* 1925 The specific emphasis is on disillusionment with the American lifestyle as reflected in these novels The two books have been chosen because both are prominent examples of the literary criticism that Americans were directing at their homeland from abroad throughout the twenties In a first step necessary historical background regarding the nature of the American lifestyle is provided in chapter two This information is included in order to facilitate a better understanding of what Hemingway and Fitzgerald were actually disillusioned with Furthermore that lifestyle was a primary motivating factor behind the expatriation of many United States citizens Attention is given to the extraordinary nature of the American migration to Paris in the twenties as the sheer volume of exiles set it apart from any expatriation movement before or since in American history Moreover a vast majority of the participants were writers artists or intellectuals a fact which suggests the United States during
