Parler Croquant:

Village Notables in Nineteenth-Century France Barnett Singer, 1983-06-30 Local priests mayors and schoolmasters have often been portrayed by French novelists as objects of ridicule In reality however the village notables gave norms to the villagers in their communities and personified the community's values The influence of village notables and the values they preached and personified ensure their importance in any view of French rural history Their world was already in transition towards modernity and they both guided and impeded the process Village Notables in Nineteenth Century France tells who these notables were where they came from what they thought what influence they had in local society how they competed with each other for village hegemony or enhanced status and what problems they endured The book is a lively account solidly based on extensive archival research and other primary sources It gives the reader a feel for the era and the milieu

Claude Duneton, Chroniqueur at Le Figaro Mary Munro-Hill, 2018-07-26 Claude Duneton was a French literary figure of note 1935-2012 and a versatile and prolific writer whose Parler croquant 1973 first brought him public acclaim He enjoyed most of all the weekly language articles he wrote for Le Figaro littéraire from 1994 to 2010 when his life as a writer was cruelly cut short by a severe disabling stroke When Claude Duneton succeeded Maurice Chapelain Aristide as resident chroniqueur du langage at Le Figaro he was not without experience in the field having successfully composed such pieces for the women's magazine Elle during the late 1970s That period served him well as a preparation for his sixteen years at Le Figaro The title of his articles Le plaisir des mots was perfectly fitting since his work as chroniqueur brought him the greatest delight and satisfaction les mots words their meaning their etymology their often amusing history their every aspect being his grande passion **Parler croquant** Claude Duneton, 1978 [Linguistic Policies and the Survival of Regional Languages in France and Britain](#) A. Judge, 2007-02-07 It was traditionally assumed that a single official language was

necessary for the wellbeing of the state particularly in France and Britain This assumption is now questioned and regional languages are making in some cases an impressive comeback This book analyses a range of languages development decline and efforts at regeneration **Bertrand Tavernier** Lynn A. Higgins, T. Jefferson Kline, 2016-09-23 Bertrand Tavernier 1941-2021 was widely considered to be the leading light in a generation of French filmmakers who launched their careers in the 1970s in the wake of the New Wave In just over forty years he directed twenty-two feature films in an eclectic range of genres from intimate family portrait to historical drama and neo-Western Beginning with his debut feature L'Horloger de Saint Paul 1974 which won the prestigious Louis Delluc Prize Tavernier showed himself to be a public intellectual Like his films he was deeply engaged with the pressing issues facing France and the world the consequences of war colonialism and its continuing aftermath the price of heroism and the power of art A voracious cinephile he was immensely knowledgeable about world cinema and American film in particular Tavernier's roots were in Lyon the birthplace of the cinema He founded and presided over the Institut Lumi re which hosts retrospectives and an annual film festival in the factory where the Lumi re

brothers made the first films In this collection containing numerous interviews translated from French and available in English for the first time he discusses the arc of his career following in the lineage of the Lumi re brothers in that his goal like theirs is to show the world to the world It is no surprise then that an interview with Tavernier is a treat Beginning with discussions of his own films the interviews in this volume cover a vast range of topics At the core are his thoughts about the ways cinema can inspire the imagination and contribute to the broadest possible public conversation *Language and Nationalism in Europe* Stephen Barbour, Cathie Carmichael, 2000-12-14 This book examines the role of language in the present and past creation of social cultural and national identities in Europe It considers the way in which language may sometimes reinforce national identity as in England while tending to subvert the nation state as in the United Kingdom After an introduction describing the interactive roles of language ethnicity culture and institutions in the character and formation of nationalism and identity the book considers their different manifestations throughout Europe Chapters are devoted to Britain and Ireland France Spain and Portugal Scandinavia the Netherlands and Belgium Germany Austria Switzerland and Luxembourg Italy Hungary Poland Slovakia and the Czech Republic Bulgaria Bosnia Hercegovina Albania Slovenia Romania Croatia Macedonia Serbia Montenegro and Kosovo Greece and Turkey the Ukraine Belarus Moldova the Baltic States and the Russian Federation The book concludes with a consideration of the current relative status of the languages of Europe and how these and the identities they reflect are changing and evolving *Pierre Bourdieu* Michael Grenfell, Michael Kelly, 2001 Oxford Bern Berlin Bruxelles Frankfurt M New York Wien 1999 2001 *The Past in French History* Robert Gildea, 1996-01-01 This fascinating book examines how the past pervades French public life how the French both commemorate their past triumphs heroes and martyrs and attempt to erase the more violent events in their history The book surveys the ways that various political communities in France during the past two centuries have manufactured different versions of the past in order to define their identities and legitimate their goals Beginning with a discussion of the bicentenary of the French Revolution in 1989 Robert Gildea moves backward in time to show how rival factions have used various elements of French political culture from the grandeur of the ancien r gime to Catholicism Jacobinism Anarchism and Bonapartism to further their ends Gildea shows how proponents of revolution and counterrevolution church and state centralism and regionalism and national identity and nationalism campaigned to achieve the widest possible acceptance of their own view of the past He describes the continuing battle between Left and Right for association with national heroes such as Joan of Arc and Napoleon He exposes the reworking of collective views of the past by political communities in order to increase or recover political legitimacy Written in clear and trenchant prose the book offers a new perspective on French history and political culture *French Today* Carol Sanders, 1993-04-08 French Today is a profile of the French language in its social context British and French linguists examine trends in French throughout the French speaking world and address issues around prescriptivism gender and language and regional languages and dialects The collection includes overviews of

work done in particular areas and deeper analyses of sociolinguistic questions One theme is how to represent and interpret data relating to language varieties that have been marginalised Another concerns the ways in which French is adapting to the future whether as a language of new technology or as a vehicular language on the continent All chapters of this book are in English with examples and quotations in French and a mixture of references given in both languages At the end of each chapter there are also texts in French serving as illustration and as pointers to further reading

The French Review James Frederick Mason, Hélène Harvitt, 1975 **Ba Shiru**, 1980 Journal of African languages and literature **Language People** Colin H. Evans, 1988 A portrait of one of the highly individualized groups of people that compose the world of Higher Education Focuses on the author's interviews with students and lecturers to discover their reasons for language as a field of study Also explores the links between language culture and personality A **Language problems and language planning**, 1979 **The American Dream in Nineteenth-century Quebec** Robert Major, 1996 Antoine Gerin Lajoie's Jean Rivard 1862-4 is recognized as a landmark novel in Quebec literature It has come to be regarded as a typical mid nineteenth century example of the conservative and the reactionary nationalism and patriotism into which French Canadians withdrew after the crushing of the Patriotes in 1837 and 1838 In this brilliant and iconoclastic study which is an adaptation and translation into English of his Jean Rivard ou l'Art de réussir Ideologies et utopie dans l'oeuvre d'Antoine Gerin Lajoie published in 1991 Robert Major challenges this view of the novel and of the political and intellectual milieu in which it was produced He suggests that Quebec culture in the nineteenth century was far richer and more diverse than the prevailing view allows While Jean Rivard is a novel about settlement the need to develop the virgin territories of Canada Major contends that it is also a success story based on the American model of Horatio Alger a novel which advocates economic liberalism and urbanization as well as rugged individualism Through his analysis of Jean Rivard Major re-examines the attitudes to the United States common in the period and points to the ways in which the United States functioned in Quebec political imagery as an icon of democracy
