Clinician's Guide to Partial Hospitalization and Intensive Outpatient Practice Dr. David Houvenagle, PhD, LCSW, David Houvenagle, 2015-06-04 Print CourseSmart Partial Hospitalization Raymond F. Luber, 2013-03-13 There was a time not long ago when the only treatment options considered to be worthwhile for patients requiring psychiatric care were the 50 minute hour on the one hand or full time hospitalization on the other Most of us were convinced in those days that treatment could and indeed should take place with a minimum of involvement by the patient s family Nor did we really consider that the community in which a patient lived was a significant contributor to either his illness or its cure These naive assumptions were strongly challenged of course beginning with the questions of social psychiatrists in the 50s and continuing with the quiet growth of the patients rights movement Thus it is no mere coincidence that when the community psychiatry movement emerged in the mid 60s as a powerful force for profound change in our traditional practice the concept of partial hospitalization which can be traced back at least 30 years became a symbol of the new social psychiatry Partial hospitalization had singular advantages well attuned to the times it did not force a separation between the patient and his family it cost far less to deliver than inpatient care and it avoided the stigma of institutionalization while still providing far more care than the traditional psychotherapeutic hour In a few years time several well controlled studies documented that virtually all patients who were customarily treated on an inpatient basis could be effectively managed and treated in a day hospital *Handbook of Partial Hospitalization* Geoffrey Angelo Williston DiBella, 1982 **Partial Hospitalization for the Mentally Ill** Joint Information Service of the American Psychiatric Association and the National Association for Mental Health, 1969 Federal Register , 1993-07 **Differing Approaches to Partial Hospitalization** Kenneth Goldberg, 1988 Provides theoretical models and practical techniques to demonstrate the effectiveness of partial hospitalization programs in meeting the needs of a variety of patients Describes three successful programs and the process by which patients progress through treatment **A Program Evaluation** Matthew L.
