Participatory Governance In Multilevel Context:

Participatory Governance in Multi-Level Context Hubert Heinelt, Panagiotis Getimis, Grigoris Kafkalas, Randall Smith, Erik Swyngedouw, 2013-06-29 Angela Liberatore Governance shifted from a concept used by a few specialists to one quite widely while surely not universally used in policy making circles and public debate This does not mean that the interpretation of the concept is in the meantime uncontested or obvious Analytical and policy debate is at times quite heated on whether governance means privatisation of government or rather involvement of various actors at various levels in policy making without dismantling the role of public authorities Therefore a better understanding is needed of what governance actually means why and how governance arrangements and actors in Europe are changing and what are the implications of such changes for instance in terms of democracy and legitimacy Such understanding is especially needed in the specific context of the challenges to European policy making and institutions posed by the structural changes in the European society and economy the ongoing enlargement of the European Union and the new global context The analytical and policy need to better understand governance is acknowledged and taken care of in a number of national and international research initiatives and is part of a collective European endeavour Research on governance and citizenship started being undertaken in European Community research programmes within the Key Action Improving the socio economic knowledge base of the 5th Framework Research Programme and will be further supported in the 6th Framework Programme under the priority on Citizens and governance in the knowledge based society

Participatory Governance in Multi-Level Context Hubert Heinelt, Panagiotis Getimis, Grigoris Kafkalas, Randall Smith, Erik Swyngedouw, 2002-01-31 The book addresses theoretically and empirically the question under what conditions innovative and sustainable policies can be achieved through participatory governance

Handbook on Local and Regional Governance Filipe Teles, 2023-01-13 Holistic in approach this Handbook's international range of leading scholars present complementary perspectives both theoretical and empirically pertinent to explore recent developments in the field of local and regional governance

Sustainability, Innovation and Participatory Governance Hubert Heinelt, 2019-06-04 Title first published in 2003 This book focuses on whether participatory governance can lead to sustainable and innovative outcomes Using an empirical analysis of the development implementation and review of an EU environmental management system the Eco Management and Audit Scheme EMAS it examines under which circumstances participatory governance might encourage sustainability and innovation

Debating the Democratic Legitimacy of the European Union Beate Kohler-Koch, Berthold Rittberger, 2007

Recoge 1 Democracy 2 What future for parliamentary democracy in the EU 3 The public sphere and civil society prerequisites for democratically legitimate rule making 4 Democracy and political participation 5 Deliberative democracy

Urban Governance and Democracy Michael Haus, Hubert Heinelt, Murray Stewart, 2004-09-09 The issue of local governance is high on the institutional agenda of many local and regional authorities throughout the OECD countries This book explores the relationship between two key issues of

urban governance leadership and community involvement and how making these two elements more complementary can lead to more effective as well as legitimate policy outcomes The authors examine the dilemmas involved in ensuring effective governance focusing on issues such as legitimacy citizen participation economic performance and social inclusion The Oxford Handbook of Urban Politics Karen Mossberger, Susan E. Clarke, Peter John, 2015-02-15 The Oxford Handbook of Urban Politics is an authoritative volume on an established subject in political science and the academy more generally urban politics and urban studies The editors are all recognized experts and are well connected to the leading scholars in urban politics The handbook covers the major themes that animate the subfield the politics of space and place power and governance urban policy urban social organization citizenship and democratic governance representation and institutions approaches and methodology and the future of urban politics Given the caliber of the editors and proposed contributors the volume sets the intellectual agenda for years to come

Multi-level Governance in the European Union Thomas Conzelmann, 2008 In recent years the debate on the future institutional shape of the European Union has centred on the Constitutional Treaty and the Lisbon Treaty as its less ambitious but possibly equally abortive successor The debate has thus neglected the emergence of a wide variety of new and multi level forms of governing The present volume takes stock of these debates and asks critical questions about policy conflicts and the effectiveness and legitimacy of these forms of governance Under what conditions can they stand up to the high expectations that are put in them by their supporters The volume offers reflections on the notion of network governance Multi Level Governance and the difficult issue of democratic accountability as well as empirical case studies from the structural funds area as well as from environmental policy broadly conceived

Participatory Governance Jürgen R. Grote, Bernard Gbikpi, 2002 After years of a primarily and technocratic debate on European governance it is time to emphasize the term normative dimension This book singles out participation as the issue most crucial to it Participatory governance is introduced not as part of the problem but as part of the solution Going beyond Robert Dahl democratic dilemma the contributors try to identify and describe modes of governance based on system effectiveness cum citizen participation The concept is first developed in a theory section and then followed by chapters on the multi level and the multi sector contexts within which its empirical manifestations are travelling A conclusion comments on the White Paper on Governance by the European Commission and on the implications of likely governance failure This has been made possible by a generous grant of the EU Commission under the Fifth Framework Programme on Research and Development

The Future of the Past: Paths towards Participatory Governance for Cultural Heritage Gabriela García, Aziliz Vandesande, Fausto Cardoso, Koen Van Balen, 2021-06-03 The Future of the Past is a biennial conference generally carried out during the commemoration date of the incorporation of Santa Ana de Los R os de Cuenca Ecuador as a World Heritage Site WHS It initiated in 2014 organized by the City Preservation Management research project CPM of the University of Cuenca to create a space for dialoguing among interested actors in the cultural heritage field Since then this

space has served to exchange initiatives and to promote coordinated actions based on shared responsibility in the local context The third edition of this conference took place in the context of the 20th anniversary of being listed as WHS and a decade of CPM as the Southern host of the PRECOM3OS UNESCO Chair Preventive Conservation Maintenance and Monitoring of Monuments and Sites For the very first time and thanks to the collaboration with the Raymond Lemaire International Centre for Conservation of the University of Leuven Belgium the conference expanded its local scope On this occasion contributions reflected round a worldwide challenge in the cultural field revealing the paths towards participatory governance of cultural heritage Participatory governance is understood as institutional decision making structures supported by shared responsibilities and rights among diverse actors The JCMS Annual Review of the European Union in ... ,2005
