Partings And Other Beginnings:

Partings Ruth Rudner,1993 How we leave each other can often say as much about who we are as how we say hello or maintain relationships with persons places and things around us This theme is a constant in these remembrances by Montana outdoors writer Rudner as she writes of the many farewells along the way in her search for identity solitude and community

Jews and Christians - Parting Ways in the First Two Centuries CE? Jens Schröter,Benjamin A. Edsall,Joseph Verheyden,2021-08-23 The present volume is based on a conference held in October 2019 at the Faculty of Theology of Humboldt University Berlin as part of a common project of the Australian Catholic University the Katholieke Universiteit Leuven and the Humboldt University Berlin The aim is to discuss the relationships of Jews and Christians in the first two centuries CE against the background of recent debates which have called into question the image of parting ways for a description of the relationships of Judaism and Christianity in antiquity One objection raised against this metaphor is that it accentuates differences at the expense of commonalities Another critique is that this image looks from a later perspective at historical developments which can hardly be grasped with such a metaphor It is more likely that distinctions between Jews Christians Jewish Christians Christian Jews etc are more blurred than the image of parting ways allows In light of these considerations the contributions in this volume discuss the cogency of the parting of the ways model with a look at prominent early Christian writers and places and suggest more appropriate metaphors to describe the relationships of Jews and Christians in the early period

Heidegger's Possibility Kenneth Maly,2008-05-24 Although Being in Time is the more recognizable of Martin Heidegger's many books his second major work Contributions to Philosophy From Enowning also had a substantial impact on twentieth century philosophy Heidegger's Possibility is a careful and creative reading of this text by renowned scholar and translator Kenneth Maly As someone who has translated Contributions to Philosophy From Enowning into English Maly has a unique grasp of the work as well as the philosophical dimensions that inform it and applies his familiarity in this eloquent and fascinating study Heidegger's Possibility focuses on issues of language and translation which are both important formative aspects of Heidegger's work and which place his thought and writing processes in perspective Maly's own philosophical understanding helps to illuminate such concepts as nondual thinking a movement beyond subject object and the being beings difference and an integral part of Heidegger's philosophy In Maly's hands this and other ideas emerge at the cutting edge of cosmology ontology and interpretive phenomenology This study also includes the first English translations of two works by Heidegger as well as an essay that takes a critical look at the controversy surrounding the translation of Contributions to Philosophy From Enowning almost a decade ago

Parting Knowledge James Wetzel,2013-08-08 There are forms of knowing that seem either to come from a parting or to require one Paradigmatically in Genesis Adam parts from God in order to join in knowledge with his partner the flesh of his flesh and the result is a bereft but not unpromising knowledge looking like a labor of love Saint Augustine famously some would say infamously reads the

Genesis paradigm of knowing as a story of original sin where parting is both damnable and disfiguring and reuniting a matter of incomprehensible grace Roughly half the essays in this collection engage directly with Augustine's theological animus and follow his thinking into self division perversity of will grief conversion and the aspiration for transcendence The remaining ones more concerned with grace than with sin bring an animus more distantly Augustinian to the preemption of forgiveness and the persistence of hell morality and its limits sexual piety strange beauty and a philosophy that takes in confession The common pull of all the essays is towards the imperfection in self knowledge a place of disfigurement perhaps but also a nod to transformation
