**Eva Elizabeth Wright, Edmond Wright**

## Paranoia Within Reason:

*Paranoia Within Reason* George E. Marcus, 1999-02-15 This text examines conspiracy theories and tackles paranoia as a style of debate within science psychotherapy and popular entertainment A conspiracy theory emerges as a way to address the inadequacies of rational expertise and organization in the face of the changes that undermine them [Occult Features of Anarchism](#) Erica Lagalisse, 2019-02-01 In the nineteenth century anarchists were accused of conspiracy by governments afraid of revolution but in the current century various conspiracy theories suggest that anarchists are controlled by government itself The Illuminati were a network of intellectuals who argued for self government and against private property yet the public is now often told that they were and are the very group that controls governments and defends private property around the world Intervening in such misinformation Lagalisse works with primary and secondary sources in multiple languages to set straight the history of the Left and illustrate the actual relationship between revolutionism pantheistic occult philosophy and the clandestine fraternity Exploring hidden correspondences between anarchism Renaissance magic and New Age movements Lagalisse also advances critical scholarship regarding leftist attachments to secular politics Inspired by anthropological fieldwork within today's anarchist movements her essay challenges anarchist atheism insofar as it poses practical challenges for coalition politics in today's world Studying anarchism as a historical object *Occult Features of Anarchism* also shows how the development of leftist theory and practice within clandestine masculine public spheres continues to inform contemporary anarchist understandings of the political in which men's oppression by the state becomes the prototype for power in general Readers behold how gender and religion become privatized in radical counterculture a historical process intimately linked to the privatization of gender and religion by the modern nation state [Social Thought From the Ruins](#) David A. Westbrook, 2025-08-18 Through stories conversations and essays this book pursues interwoven critical and philosophical inquiries into the nature of the contemporary in the North Atlantic asking how are we to live as intellectuals individually and in community *Social Thought From the Ruins* Quixote's Dinner Party is the product of informal discussion and academic work done over the last two decades among an international group of social scientists An extended critique of academic life today and the context of our own thinking this book interrogates aspects of our modernity with its pervasive sense of crisis and uncertainty and the difficulty of thinking clearly about things like the state and power data and violence Reflecting that the United States indeed the North Atlantic countries seem to have entered autumn David A Westbrook asks what spring might be Will the critical social sciences have anything to offer the exercise of power or are we doomed to incessant and ineffectual critique Can bureaucracy be made at least more accountable if not democratic Conversely can we feel less alienated from the structures of power that rule us or that fail to govern at all Can we feel at home The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution CC BY 4.0 license [Transparency and Conspiracy](#) Harry G. Christopher M. Driscoll,Monica R. Miller,2020-07-02 Method as Identity Manufacturing Distance in the Academic Study of Religion emphasizes the inexorable influence that social identities exert in shaping methodological choices within the academic study of religion as witnessed in *sui generis* appeals to particularity and reliance on or rejection of identity based standpoints Can data speak back and if so would scholars have ears to listen With a refreshing hip hop sensibility Miller and Driscoll argue that what cultural theorist Jean Fran ois Bayart refers to as a battle for identity forces a necessary confrontation with the impact of social identities and their histories haunting our fields of study These complex categorical specters make it nearly impossible to untether the categories of identity that we come to study from the identity of categories shaping our methodological lenses Treating method as an identity revealing technique of distance making between the proper scholar and the less than scholarly advocate for religion Miller and Driscoll examine a variety of discursive milieus of vagueness consider for instance essentialism origins authenticity at work in the contemporary discussion of critical methods that lack the necessary specificity for doing the heavy lifting of analytically handling the asymmetrical dimensions of power part and parcel to social identification Through interdisciplinary discussions that draw on thinkers including Charles H Long Bruce Lincoln Russell T McCutcheon Theodor Adorno Jacques Derrida C Wright Mills Laurel C Schneider William D Hart Tomoko Masuzawa Anthony B Pinn bell hooks Roderick Ferguson John L Jackson Jasbir Puar and Jean Fran ois Bayart among others Method as Identity intentionally blurs the lines classifying proper scholarly approach and proper objects of study With an intentional effort to challenge the *de facto* disciplinary segregation marking the field and study of religion today Method as Identity will be of interest to scholars involved in discussions about theory and method for the study of religion and especially researchers working at the intersections of identity difference and classification and the politics thereof

**Getting Through Security** Mark Maguire,David A. Westbrook,2020-11-29 Getting Through Security offers an unprecedented look behind the scenes of global security structures The authors unveil the secret colleges of counterterrorism a world haunted by the knowledge that intelligence will fail and Leviathan will not arrive quickly enough to save everyone Based on extensive interviews with both special forces and other security operators who seek to protect the public and survivors of terrorist attacks Getting Through Security ranges from targeted European airports to African malls and hotels to explore counterterrorism today Maguire and Westbrook reflect on what these practices mean for the bureaucratic state and its violence and offer suggestions for the perennial challenge to secure not just modern life but humane politics Mark Maguire has long had extraordinary access to a series of counterterrorism programs He trained with covert behavior detection units and attended secret meetings of international special forces He found that security professionals for all the force at their command are haunted by ultimately intractable problems Intelligence is inadequate killers unexpectedly announce themselves combat teams don t arrive quickly enough and for a time an amorphous public is

on its own Such problems both challenge and occasion the institutions of contemporary order David Westbrook accompanied Maguire pushing for reflection on what the dangerous enterprise of securing modern life means for key concepts such as bureaucracy violence and the state Introducing us to the secret colleges of soldiers and police where security is produced as an infinite horizon of possibility and where tactics shape politics covertly the authors relate moments of experimentation by police trying to secure critical infrastructure and conversations with special forces operators in Nairobi bars a world of shifting architecture technical responses and the ever present threat of violence Secrecy is poison Government agencies compete in the dark The uninformed public is infantilized Getting Through Security exposes deep flaws in the foundations of bureaucratic modernity and suggests possibilities that may yet ameliorate our situation **An Ecology of Knowledges**
