## Paris Vertical:

Paris Vertical Horst Hamann, 2006 Award winning photographer Horst Hamann's vertical reconnaissance trips through the world's most beautiful and romantic city have yielded an astonishing array of images in this stunning pictorial tribute to Paris. Sensitized to vertical perspectives since publishing his best-selling *New York Vertical* and equipped with a new panoramic camera, he painstakingly set up shot after shot, often finding himself precariously balanced off Notre-Dame's gargoyles, the balconies of the Pompidou Center, even the Eiffel Tower. His stark black and white compositions offer unique vertical reinterpretations of some of Europe's most recognizable cityscapes. Horst Hamann has become famous during the last twenty years for his panoramic photography. His internationally acclaimed and widely exhibited photographs of New York have been published in the best-selling *New York Vertical*, *teNeues*, and more recently in *One Night on Broadway*. Born in Germany, he is now based in New York. **SELLING POINTS** A unique pictorial tribute to Paris by the award-winning photographer of *New York Vertical*. Stark black and white compositions that offer stunning vertical reinterpretations of some of Europe's most recognizable cityscapes.

**Art as experience of the living body / L'art comme expérience du corps vivant** Christine Vial Kayser, 2024-01-23 This book analyses the dynamic relationship between art and subjective consciousness following a phenomenological, pragmatist and enactive approach. It brings out a new approach to the role of the body in art, not as a speculative object or symbolic material, but as the living source of the imaginary. It contains theoretical contributions and case studies taken from various artistic practices: visual art, theatre, literature and music. Western and Eastern, the latter concerning China, India and Japan. These contributions allow us to nourish the debate on embodied cognition and aesthetics using theory, philosophy, art history, neuroscience and the authors' personal experience as artists or spectators. According to the Husserlian method of reduction and pragmatist introspection, they postulate that listening to bodily sensations, cramps, heartbeats, impulsive movements, eye orientation can unravel the thread of subconscious experience, both active and affective, that emerges in the encounter between a subject and an artwork, an encounter which, following John Dewey, we deem to be a case study for life in general. Ce livre analyse la relation dynamique entre l'art et la conscience subjective selon une approche phénoménologique, pragmatiste et enactive. Il vise à faire merger une nouvelle approche du rôle du corps dans l'art, non pas comme objet spéculatif.
