As a grandfather to nine, I've read many books about color to toddlers and young children. In a word, boring. There is so much form and color in this world that cartoonish drawings do not communicate. So I asked myself: What in the world has enough primary colors to teach little ones? My answer was either frogs or parrots. Then I stumbled upon *Histoire Naturelle des Perroquets* by François Levaillant. While the 19th century French was difficult, the images were astounding. I had found the perfect medium for teaching colors to children everywhere. I hope you enjoy reading this book to your little ones. I certainly do. This edition is printed using the OpenDyslexic font for dyslexic readers. **Enjoyable and Vibrant Birds to Color, Let's Color Happy Parrots** Ka Schlicht, 2024-06-20.
