Fighting for Partnership Lowell Turner, 2018-05-31 West Germany from 1949 to 1990 was a story of virtually unparalleled political and economic success This economic miracle incorporated a well functioning political democracy expanded to include a social partnership system of economic representation Then the Wall came down Economic crisis in the East industrial collapse massive layoffs a demoralized workforce triggered gloomy predictions Was this the beginning of the end for the widely admired German model Lowell Turner has extensively researched the German transformation in the 1990s Indeed in 1993 he was at the factory gates at Siemens in Rostock for the first major strike in post Cold War eastern Germany In that strike and in a series of other incisively analyzed workplace and job developments in eastern Germany he shows the remarkable resilience and flexibility of the German social partnership and the contribution of its institutions to unification His controversial and to some radical findings will stimulate debate at home and abroad

A Guide to Building Education Partnerships Matthew T. Hora, Susan B. Millar, 2023-07-03

Education partnerships are central to and often a requirement of most education reform initiatives promoted by state and local governments by foundations and by business funders Many fail for failure to understand the dynamics of their complex relationships This book provides insights and guidance to enable prospective and existing education partners to develop answers to the questions that are critical to success Why engage in this partnership How can you communicate the potential benefits of partnership to motivate teachers faculty administrators and community members How do you select the best organizational structure and procedures for a partnership How can you maintain open deliberative discussion while

respecting different histories and cultures How can you produce compelling evidence that the partnership is worthwhile Based on their observation of a five year long publicly funded partnership research data and the literature the authors identify the principles that they consider critical to answering these questions The authors do not minimize the differences and complexities inherent in partnership work because they believe that doing so would be to present coherence and homogeneity where none exists Instead they seek to make evident how these principles underlie many different partnership situations Thus rather than presenting a package of best practices or a cookie cutter approach this book presents the organizational principles for planning and implementing education partnerships along with sets of strategies for working through them The authors present the diagnostic tools for undertaking a deliberate and research based approach to planning designing and managing a partnership By surfacing participants often differing motivations and the practices and assumptions they bring to the table the book provides the foundation for developing a constructive relationship In scope the book extends beyond school university partnerships to include schools collaboration with state and local governments nonprofit organizations and the business sector

China and Its Small Neighbors Sung Chull Kim,2023-03-01 In *China and Its Small Neighbors* Sung Chull Kim examines the political implications of the economic asymmetry between China and its small neighbors part of wider changes in international relations brought about by the rise of China While being critical of the current trend that focuses on the China U S rivalry alone Kim argues that a microanalysis of China s advances toward its neighbors is a guide to understanding the trajectory of China s expanding influence and transitions in world politics more broadly Economic asymmetry as seen in trade concentration non transparency and reliance on bilateral aid has made China s small neighbors vulnerable on the political front thus generating potential threats to their sovereignty and independence Because China has the upper hand in the bilateral relationships these weak states practice dual core hedging as a strategy for survival They hedge on China for expected economic benefits and at the same time hedge against their powerful neighbor to mitigate the risks involved in that hedging on Each small state s mode of hedging depends on its degree of vulnerability and its availability of policy instruments such as multilateral institutions and bilateral partnerships with extra regional powers
