**Hidden Costs of Energy** National Research Council,Policy and Global Affairs,Board on Science, Technology, and Economic Policy,Division on Engineering and Physical Sciences,Board on Energy and Environmental Systems,Division on Earth and Life Studies,Board on Environmental Studies and Toxicology,Committee on Health, Environmental, and Other External Costs and Benefits of Energy Production and Consumption,2010-06-26 Despite the many benefits of energy most of which are reflected in energy market prices the production distribution and use of energy causes negative effects Many of these negative effects are not reflected in energy market prices When market failures like this occur there may be a case for government interventions in the form of regulations taxes fees tradable permits or other instruments that will motivate recognition of these external or hidden costs The Hidden Costs of Energy defines and evaluates key external costs and benefits that are associated with the production distribution and use of energy but are not reflected in market prices The damage estimates presented are substantial and reflect damages from air pollution associated with electricity generation motor vehicle transportation and heat generation The book also considers other effects not quantified in dollar amounts such as damages from climate change effects of some

air pollutants such as mercury and risks to national security While not a comprehensive guide to policy this analysis indicates that major initiatives to further reduce other emissions improve energy efficiency or shift to a cleaner electricity generating mix could substantially reduce the damages of external effects A first step in minimizing the adverse consequences of new energy technologies is to better understand these external effects and damages The Hidden Costs of Energy will therefore be a vital informational tool for government policy makers scientists and economists in even the earliest stages of research and development on energy technologies Venture Funding and the NIH SBIR Program National Research Council,Policy and Global Affairs,Committee for Capitalizing on Science, Technology, and Innovation: An Assessment of the Small Business Innovation Research Program,2009-07-22 The Small Business Administration issued a policy directive in 2002 the effect of which has been to exclude innovative small firms in which venture capital firms have a controlling interest from the SBIR program This book seeks to illuminate the consequences of the SBA ruling excluding majority owned venture capital firms from participation in SBIR projects This book is part of the National Research Council s study to evaluate the SBIR program s quality of research and value to the missions of five government agencies The other books in the series include An Assessment of the SBIR Program 2008 An Assessment of the SBIR Program at the National Science Foundation 2007 An Assessment of the Small Business Innovation Research Program at the National Institutes of Health 2009 An Assessment of Small Business Innovation Research Program at the Department of Energy 2008 An Assessment of the Small Business Innovation Research Program at the National Aeronautics and Space Administration 2009 An Assessment of the Small Business Innovation Research Program at the Department of Defense 2009 *Revisiting the Department of Defense SBIR Fast Track Initiative* National Research Council,Policy and Global Affairs,Committee for Capitalizing on Science, Technology, and Innovation: An Assessment of the Small Business Innovation Research Program,2009-09-25 In October 1995 the Department of Defense launched a Fast Track initiative to attract new firms and encourage commercialization of Small Business Innovation Research SBIR funded technologies throughout the department The goal of the Fast Track initiative is to help close the funding gap that can occur between Phase I and II of the SBIR program The Fast Track initiative seeks to address the gap by providing expedited review and essentially continuous funding from Phase I to Phase II as long as applying firms can demonstrate that they have obtained third party financing for their technology Another program initiative Phase II Enhancement was launched in 1999 to concentrate SBIR funds on those R D projects most likely to result in viable new products that the Department of Defense and others will buy The current volume evaluates the two SBIR Program initiatives Fast Track and Phase II Enhancement and finds that both programs are effective Ninety percent of Fast Track and 95 percent of Phase II Enhancement reported satisfaction with their decision This book identifies the successes and remaining shortcomings of the programs providing recommendations to address these issues **American Book Publishing Record** ,2006 *Summary Records of the ...
