Summary of Mating in Captivity SellWave Audio, 2025-11-14. *Mating in Captivity* explores one of the most puzzling dilemmas in long term relationships: why the security we crave in love often seems to smother the passion we desire. Drawing on decades of clinical experience, Esther Perel examines the tension between domestic comfort and erotic vitality, showing how modern couples frequently build loving supportive partnerships that nevertheless lack excitement in the bedroom. She asks the difficult questions many are afraid to voice: why do desire and stability so often clash and what can we do about it? Perel argues that the very qualities that make a relationship feel safe—equality, transparency, predictability, and constant emotional closeness—can unintentionally diminish erotic spark. Passion thrives not on sameness but on distance, imagination, mystery, and the playful dance of power. Erotic energy is not polite or neatly aligned with our ideals of fairness. Instead, it feeds on contrasts: closeness and separation, familiarity and novelty, intimacy and independence. When couples rely too heavily on emotional caretaking or rigid expectations, they risk turning the home into a cage rather than a space of possibility. Through vivid case studies and fresh insight, Perel shows how couples can revive desire by reintroducing space, individuality, and a sense of curiosity into their relationships. Rather than collapsing into constant togetherness, partners can cultivate a dynamic where both safety and attraction coexist. She encourages readers to reimagine intimacy as something alive and ever changing, not a box to be checked. Her approach is provocative, liberating, and deeply human. *Mating in Captivity* opens the door to a new understanding of erotic life, one that acknowledges our need for security while celebrating the thrill of the unknown. Perel invites couples to rekindle playfulness, tension, and creativity, putting wonder and passion back at the heart of their connection.

Household Panel Survey and the Families and Children Study from 1991 to 2006 **The Class Structure of Capitalist Societies, Volume 3** Will Atkinson, 2024-04-01 This book continues the Class Structure of Capitalist Societies series by exploring the place of class among a confluence of factors in shaping people's lives, loves and lifestyles across three nations. Previous volumes in the series examined the shape, history and cultural expressions of class structures. Now, grappling with themes usually put under the labels of intersectionality and work-life balance and bridging literatures seldom brought together, this volume uses an innovative mix of statistical techniques to untangle the messy nexus of factors: class, age, gender, race, ethnicity, intimate relations, political context and more, underpinning everyday routines, spaces, possessions, practices, and possibilities and self-perceptions in the US, Germany and Sweden. In the process, it advances the specific vision of class and social relations developed by Pierre Bourdieu, pursuing the case above all that conceptual and methodological progress is necessary to fully recognise and explore the multiplicity of desires, dispositions and demands at play in people's lives. The volume will be of major interest to scholars of class, culture, gender and family, but will appeal to anyone interested in the interplay of identities and pressures implicated in contemporary experiences and inequalities. Family Law Ruth Lamont, 2022 This innovative textbook explores the compelling debates that bring family law alive, offering a critical guide to the subject. Under the expert editorship of Ruth Lamont, each author has crafted a superbly clear guide to their specialist topic, with a focus on areas of controversy and essential context.
