Major World Religions From Their Origins To The Present:

Major World Religions Lloyd Ridgeon, 2003-12-08 This book focuses upon those religions that continue to demand the attention of the Western world

The History of the Rise and Fall of the World's Religions and their Evolution Younus Samadzada, 2022-01-14 This book chronologically documents the rise and fall of the major religions of the world and explores the role that various cultural factors such as dance, trance, music, song, and language have played in this evolution. The role that leaders play in the evolution of religion is also discussed. Starting from the primitive religions of hunter-gatherer societies in which religion was not part of any institution, the next stages of human life from the agricultural revolution to the modern religions of today are discussed. Among the modern religions discussed are Judaism, Buddhism, Christianity, Islam, Scientology, and numerous others. The reader is further provided with a unique perspective on the potential good and evil aspects of religion and the very reality of the existence of a God or gods, and the possible downfalls of the religious belief system.

Religion in History / La religion dans l'histoire Michel Despland, Gérard Vallée, 1992-03-03 The history of the concept of religion in Western tradition has intrigued scholars for years. This important collection of eighteen essays brings further light to the ongoing debate. Three of the invited participants, W. C. Smith, M. Despland, and E. Feil, each have previously written impressive books treating this subject; the last two acknowledged the impact and continuing influence of Smith's work. The Meaning and End of Religion: An introduction and a recapitulation of Smith's contribution as a scholar set the stage for a retrospective look at the published literature. Contributors then examine the transformation of words, the classical religio to the modern religion, particularities of religion in nineteenth-century France, Troeltsch's concept of religion, the study of religion from an Asian point of view, and the categorization of World Religions. The concluding essays elaborate contemporary anthropological, cross-disciplinary, semiological, deconstructive, and psychoanalytical methodological approaches to the concept and study of religion. Exploring critically different aspects of the concept and study of religion, these provocative essays typically reflect the methodological pluralism currently existing in the field of Religious Studies. Of interest to scholars and students alike, this collection also contains a complete bibliography of W. C. Smith's publications.

Bahudhā and the Post 9/11 World Balmiki Prasad Singh, 2008 This book propounds the concept of Bahudhā, an eternal reality or continuum, a dialogue of harmony and peaceful living. It refutes widely publicized ideas about the clash of civilizations and explains how the Bahudhā approach recognizes the distinction between plural societies and pluralism, an inevitable ingredient of democratic societies. One of the lessons of 9/11 is that we are living in an interdependent world. The author argues that in these times of unprecedented change, old doctrines have to be transcended and the language of dialogue needs to be reconstructed. The answer to terrorism lies in respect for human rights and other cultures and value systems. This will go a long way in facilitating and enhancing dialogue processes, eventually leading to a harmonious society and a peaceful world.

Doing History Linda S. Levstik, Keith C. Barton, 2015-01-30 Now in its fifth edition, *Doing History*

offers a unique perspective on teaching and learning history in the elementary and middle grades Through case studies of teachers and students in diverse classrooms and from diverse backgrounds it shows children engaging in authentic historical investigations often in the context of an integrated social studies curriculum The premise is that children can engage in valid forms of historical inquiry collecting and analyzing data examining the perspectives of people in the past considering multiple interpretations and creating evidence based historical accounts Grounded in contemporary sociocultural theory and research the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature art writing discussion and debate The authors explain how the teaching demonstrated in the vignettes reflects basic principles of contemporary learning theory Doing History emphasizes diversity of perspectives in two ways readers encounter students from a variety of backgrounds and students themselves look at history from multiple perspectives It provides clear guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children s learning

Rethinking Religion Will Deming, 2005 The overwhelming majority of people in the world 85% are religious and more religions are now practiced in the United States than in any other country Religion plays a critical role in international politics in the global economy and in a wide variety of social and cultural interactions on the domestic front Even though religion is such an integral part of today s world many Americans have difficulty discussing it publicly They are often unfamiliar with any religion but their own finding other religions mysterious or even threatening Offering a brief and accessible point of entry into the subject *Rethinking Religion A Concise Introduction* begins by highlighting the significance of religion in modern society and providing a simple definition that goes beyond vague notions of faith or belief in God Drawing material from a diverse range of religions including Hinduism Buddhism Judaism Christianity Islam and primal religions author Will Deming walks readers through thirty examples of how religions work exploring the significance of religious events and pronouncements He also considers several topics that continue to fascinate and challenge Westerners the ethics of studying someone else s religion the truth of religion the possibilities for preferring one religion over another religious pluralism and the contentious dialogue between science and religion Enhanced by an innovative glossary of religious terms and numerous pictures and analyses of everyday religious activities *Rethinking Religion A Concise Introduction* is ideal for introducing students to the concept of religion and for courses in comparative and world religions It is also captivating reading for theologians scholars and anyone interested in the topic

Undergraduate Announcement University of Michigan--Dearborn, 1985 *Subject Guide to Books in Print*, 1991 **Religion, History, and Politics in**

Nigeria Chima J. Korie, Ugo G. Nwokeji, 2005-03-16 Religion History and Politics in Nigeria is concerned with the problematic nature of religion and politics in Nigerian history The book provides a lively and straightforward treatment of the relationship among religion politics and history in Nigeria and how it affects public life today By adopting various cultural historical political and sociological perspectives the text s contributors provide an excellent introduction to the volatile mix of

religion and politics in Nigerian history as well as a range of strategic choices open to religious adherents The complexity of the relationship among religion history and politics is organized around four themes indigenous values and the influence of Islam and Christianity colonialism and religious transformation the religious landscape of the post colonial period and the rise of evangelism and fundamentalism The volume provides an insightful guide to contemporary history contemporary religion and contemporary politics enabling the reader to reach informed and balanced judgments about the role in religion in Nigerian history and politics This opens the door for serious examination and debate and will be excellent for use by the general reader and in political science history and religion courses
