Making Good Citizens Education And Civil Society:

Making Good Citizens Diane Ravitch, Joseph P. Viteritti, 2001-01-01 Annotation In this book leading thinkers from a variety of disciplines probe the relation between a healthy democracy and education Contributors such as Jean Bethke Elshtain, Nathan Glazer, Robert Putnam, Jack Rakove, and Alan Wolfe discuss topics that range from the place of religion in public life to political conflict in a pluralist society to the problems of racial inequality *Making Good Citizens* Diane Ravitch, Joseph P. Viteritti, 2008-10-01 div Americans have reason to be concerned about the condition of American democracy at the start of the twenty first century Surveys show that civic participation has declined cynicism about government has increased and young people have a weak grasp of the principles that underlie our constitutional system Crucial questions must be answered How serious is the situation What role do schools play in shaping civic behavior Are current education reform initiatives such as multiculturalism and school choice counterproductive How can schools contribute toward reversing the trend This volume brings together leading thinkers from a variety of disciplines to probe the relation between a healthy democracy and education Their original and provocative discussions cut across a range of important topics the cultivation of democratic values the formation of social capital in schools and communities political conflict in a pluralist society the place of religion in public life the enduring problems of racial inequality Gathering together the most current research and thinking on education and civil society this is a book that deserves the attention of everyone who cares about the quality and future of American democracy DIV *Building Democracy and Civil Society East of the Elbe* Sven Eliaeson, 2006-04-18 This book explores the idea of civil society and how it is being implemented in Eastern Europe The implosion of the Russian empire fifteen years ago and the new wave of democratization opened a new field of inquiry The wide ranging debate on the transition became focused on a conceptual battle the question of how to define civil society Because totalitarian systems shun self organization real existing civil society barely existed East of the Elbe and the emergence of civil society took unusually complex and puzzling forms which varied with national culture and reflected the deep historical past of these societies This insightful text relates the concept of civil society and developments in Eastern Europe to wider sociological theories and makes international comparisons where appropriate It discusses particular aspects of civil society and examines the difficulties of establishing civil society It concludes by assessing the problems and prospects for civil society in Eastern Europe going forward *Paradoxes of Civil Society* Frank Trentmann, 2003 Civil Society has been experiencing a global renaissance among social movements and political thinkers during the last two decades This collection of original papers by junior and senior scholars offers an important comparative historical dimension to the debate by examining the historical roots of civil society in Germany and Britain from the seventeenth century revolutions to the beginning of the welfare state

Global Civil Society? John Keane, 2003-04-17 John Keane a leading scholar of political theory tracks the recent development of a big idea with fresh potency global civil society In this timely book Keane explores the contradictory forces

currently nurturing or threatening its growth and he shows how talk of global civil society implies a political vision of a less violent world founded on legally sanctioned power sharing arrangements among different and intermingling forms of socio economic life Keane s reflections are pitted against the widespread feeling that the world is both too complex and too violent to deserve serious reflection His account borrows from various scholarly disciplines including political science and international relations to challenge the silence and confusion within much of contemporary literature on globalisation and global governance Against fears of terrorism rising tides of xenophobia and loose talk of anti globalisation the defence of global civil society mounted here implies the need for new democratic ways of living

Civil Society and the Reform of Finance Charles McDaniel, Jr.,2015-07-16 Efforts to resolve the recent financial crisis have obscured a more deeply rooted financialization crisis that impacts not only the market economy but also the vital civic and moral traditions that support it This book reveals the cultural influence of finance in reshaping the foundations of American civil society and proposes a return to certain first principles of the Republic to restore the nation s economic vision This book demonstrates how funding concerns and financial incentives revalue faith traditions educational institutions non profit organizations and even the nation s healthcare system in ways that are eroding the diversity of American culture These changes also undermine the ethical framework of both democratic government and the free market system While financial influence has diminished the value of civil society this book proposes that revitalized intermediary institutions still offer the best path forward in restoring the financial sector and more broadly enriching the American competitive ethic toward development of a more virtuous economy The book is written for an academic and professional audience offering a blueprint for the involvement of civil society with government in providing more communally integrated oversight that could contribute to a genuine democratization of finance

Deculturalization and the Struggle for Equality Joel H. Spring,2007 Providing a history of Anglo American racism and school policies affecting dominated groups in the US this text looks at educational practices related to deculturalisation and segregation It is for Foundations of Education Multicultural Education or any course that seeks to expand student notions of the US education

Schuknecht, 2003-10-15 Scholars across several social science disciplines have indicated that the behavior described by the term civic engagement is girded by a set of attitudes that show knowledge about and positive evaluations of government and politics Drawing on extensive interviews with high school students from a variety of socioeconomic backgrounds Cultivating Democracy examines the sources of those attitudes including individual characteristics and the qualities of local environments that shape the experiences of late adolescence The authors gathered data on adolescent attitudes by interviewing students in a wide variety of locations from Baltimore's inner city and suburbs to the most affluent communities in Montgomery County Maryland Focusing initially on attitudes toward ethnic diversity and immigration the authors expanded their focus to the political socialization of young people including patriotism and political knowledge and participation The authors demonstrate how political socialization is shaped through the social messages presented to citizens by others According to Gimpel Lay and Schuknecht while formal education as a means of socializing youth is critically important other useful means for communicating positive socializing messages through political parties elections and the media have been ignored They recommend compensatory strategies to promote civic engagement among those who are at risk to be nonparticipants *The Manitoba school question, being a compilation of the legislation, the legal proceedings, the proceedings before the governor-general-in-council* John Skirving Ewart, 1894 *Baptist Quarterly Review*, 1891
