outcomes are not guaranteed Rather they hinge upon where and how you opt to invest your tuition dollars Simply put the real problem with college isn't the cost it's the risk that your investment might not pay off In *Making College Pay* Akers shows how to improve your odds by making smart choices about where to enroll what to study and how to pay for it You'll learn why choosing the right major can matter more than where you enroll the best criteria for picking a school hint not price selectivity or ranking why working part time while enrolled might set you back financially why it's often best to borrow even if you don't have to the pros and cons of innovative alternatives to traditional college how to take advantage of new low risk financing tools Full of practical advice for students and parents *Making College Pay* reminds us that higher education remains an engine for opportunity upward mobility and prosperity
