Nelson,1998 Is there a third party in our political future Our constitution separated the legislative judicial and executive powers within the government believing that a weaker government meant more freedom and prosperity for its citizens however we now have bureaucrats writing legislation determining guilt and exacting punishment Judges have taken upon themselves all three functions of government and several of our recent Presidents have engaged us in wars in violation of the Constitution We are turning our rights over to foreign powers and the Congress sits idly watching allowing the loss of those freedoms *Hormonal Imbalance* Terry Dorian,1999 Christian Broadcasting Network is offering a six cassette special edition of Dr Dorian s book Gives vital information that helps both men and women understand and avoid the horrors of hormonal imbalance due to menopause impotence lack of stamina etc *Courting Votes in Alabama* Winthrop E.

Johnson,1999 What if someone tried to change the results of an election after it was over What if they used the courts What if they succeeded in delaying the certification of the winner for over eleven months What if lawyers attempted the coup That s what happened with the 1994 Alabama Chief Justice election Could it happen in your state This book is a must read for anyone concerned about the clash of the courts with democracy Book jacket

**Comparative Mysticism** Steven T. Katz,2013 This collection of primary texts introduces readers to the mystical literature of the world s great religious traditions Beginning with an introduction by Steven T Katz a leading scholar of mysticism the anthology comprises poetry prayer narrative and other writings from Jewish Christian Muslim Hindu Buddhist Taoist Confucianist and Native American traditions This collection provides readers not only with the primary mystical texts from each religious tradition but with an explanation of the context of the source and tradition Comparative Mysticism shows how the great mystical traditions of the world are deeply rooted in the religious traditions from which they originated The contextual methodological approach taken throughout the anthology also addresses the critical question of what these mystical traditions at their highest level have in

common Despite the prevailing view that mystical traditions throughout the world are essentially similar the presentation of the sources in this volume suggests that in fact the various traditions have distinct teachings and different metaphysical goals The writings collected in Comparative Mysticism address the most fundamental and important methodological epistemological and hermeneutical questions regarding the study and interpretation of mysticism and mystical sources across cultures This anthology will be an invaluable resource to students and scholars of mystic tradition for years to come

**My Genes Made Me Do It!** N. Whitehead,Briar Whitehead,1999 The authors explore the question of whether our sexual orientation is inherited or if it is a product of our upbringing and or environment Many people think gays are born that way and few understand enough about genetics and human biology to mount a thorough defense of the facts My Genes Made Me Do It explains the role of genetics and biology in human behavior with a particular though not exclusive emphasis on homosexuality Conventional scientific method and research findings are brought together in a fresh original way to argue that no human behaviors are biologically determined     **The Christian treasury (and missionary review)**. ,1875
