**Natural Rights** David G Ritchie, 2014-04-04 First published in 2002 This is Volume XI of twelve in the Library of Philosophy series on Ethics This study is the author's criticism of some political and ethical conceptions outlined on Natural Rights and was written in 1894 **Darwinian Natural Right** Larry Arnhart, 1998-01-01 This book shows how Darwinian biology supports an Aristotelian view of ethics as rooted in human nature Defending a conception of Darwinian natural right based on the claim that the good is the desirable the author argues that there are at least twenty natural desires that are universal to all human societies because they are based in human biology The satisfaction of these natural desires constitutes a universal standard for judging social practice as either fulfilling or frustrating human nature although prudence is required in judging what is best for particular circumstances The author studies the familial bonding of parents and children and the conjugal bonding of men and women as illustrating social behavior that conforms to Darwinian natural right He also studies slavery and psychopathy as illustrating social behavior that contradicts Darwinian natural right He argues as well that the natural moral sense does not require religious belief although such belief can sometimes reinforce the dictates of nature

**Natural Religion and the Nature of Religion** Peter Byrne, 2013-05-02 This study offers students of religion and philosophy introductory chapters concerning the concept of natural religion It holds that we can't engage in useful discussion about the present concept of religion without a knowledge of the philosophical history that has shaped that concept This is discussed with reference to the notion of natural religion to illustrate certain aspects of deism and its legacy Originally published in 1989 **Natural Rights** David George Ritchie, 1903 **Conscience and Conscientious Objections** Anders Schinkel, 2007-01-01 In Western countries conscientious objection is usually accommodated in various ways at least in certain areas military conscription medicine and to some extent It appears to be regarded as fundamentally different from other kinds of objection But why This study argues that conscientious objection cannot be understood as long as conscience is misunderstood The author provides a new interpretation of the historical development of expressions of conscience and thought on the subject and offers a new approach to conscientious objection rooted in the symbol approach to conscience

**Instinct** Luther Lee Bernard, 1924 **The Methodist Review Quarterly**, 1913 **The Origin of Species by Means of Natural Selection** Charles Darwin, 1889 **Philosophy of Life** Ashok Kumar Sood, 2017-05-15 Rationality can answer a number of the most central questions about our existence and our universe Why are we here How did the universe come into existence and how will it end What is the purpose and where will we go after death In Philosophy of life Connecting Dots author Ashok Kumar Sood explores a rational and analytical approach to answer these fundamental questions about human nature and existence and he looks to the facts about our universe and about human psychology to find rational answers Philosophy of life starts with a curiosity and uses a methodology grounded in rationality to investigate both the physical aspects of the universe as well as the psychological aspects of the human mind It further explores the role of perception and

imagination in human life and it shows how maintaining physical mental social and environmental health can improve quality of life While religion and spirituality have offered traditional answers to life s most important questions a rational approach grounded in the facts of our existence can provide a more concrete foundation for optimal living Philosophy of life connecting dots can show you how to use this rationality to accomplish the ultimate goals of life and live with tranquility happiness and satisfaction

*The Origin of Species by Means of Natural Selection, Or, The Preservation of Favored Races in the Struggle for Life* Charles Darwin,1896     **The Two Faces of Justice** Jiwei Ci,2006-05-15 Justice is a human virtue that is at once unconditional and conditional Under favorable circumstances we can be motivated to act justly by the belief that we must live up to what justice requires irrespective of whether we benefit from doing so But our will to act justly is subject to conditions We find it difficult to exercise the virtue of justice when others regularly fail to Even if we appear to have overcome the difficulty our reluctance often betrays itself in certain moral emotions In this book Jiwei Ci explores the dual nature of justice in an attempt to make unitary sense of key features of justice reflected in its close relation to resentment punishment and forgiveness Rather than pursue a search for normative principles he probes the human psychology of justice to understand what motivates moral agents who seek to behave justly and why their desire to be just is as precarious as it is uplifting A wide ranging treatment of enduring questions The Two Faces of Justice can also be read as a remarkably discerning contribution to the Western discourse on justice re launched in our time by John Rawls     **Hermathena** ,1879     The Studio ,1903     **Sermons Preached in Saint George's** William Stephen Rainsford,1887     *The Infant School* John Charles Gunn,1906     **North American Journal of Homoeopathy** ,1911     *Virginia Medical Semi-monthly* ,1916
