Medieval Metaphysics of Artefacts, 1250-1500 Kamil Majcherek,2025-02-13 Are artefacts that is human made objects distinct from the natural things that they are made out of For example is a chair a thing distinct from the pieces of wood used in making it This question is intensely debated in contemporary metaphysics but it is little known that there was an equally heated and sophisticated debate concerning this issue in the late Middle Ages This book provides the first comprehensive reconstruction analysis and evaluation of this discussion looking at both the most famous figures such as William of Ockham as well as dozens of previously unstudied texts available in manuscript form only *Confessions of a Heretic* Eric Leland Saak,2025-06-15 This book is the second of a planned three volume systematic theology under the title Confessions of a Heretic Volume One which has the subtitle Philosophical Considerations was published by Archway in 2024 The project now turns to Theological Considerations with the forthcoming Volume Three being Ecclesiological Consideration Organized into three Parts Volume Two focuses on the theological endeavor and the doctrines distinctive to Christianity namely the Trinity Jesus Christ sin and salvation Based on the foundational distinctions and definitions explicated in Volume One the current volume seeks to ask what the philosophical considerations imply for basic traditional understandings and terminology of Christian theology including that of Jesus of Nazareth his crucifixion and resurrection The project as a whole adopts a trinitarian structure with this second volume focused on God the Son or as here termed God the Perfector The argument is that Christian Theology needs to shift from an anthropocentric to a theocentric approach recognizing human beings simply as creatures and having the courage to face what that entails Yet doing so necessitates a radical

reconceptualization of the very foundations of Christian Theology itself in the attempt to combat idolatry [Value in Capitalist Society](#) Paul Cobben,2015-05-26 Marx's analysis of the commodity results in his conception of Capital as substance in the form of alienation While Hegel claims that substance can be understood as the realization of freedom Marx shows this freedom to be alienated labor abstract labor which Marx identifies as the capitalist conception of value The book clarifies why Marx's so called materialist criticism of Hegel can be conceived of as an immanent criticism of Hegel Marx's criticism explicates that the realization of freedom in the Philosophy of Right contradicts Hegel's basic point of departure The adequate realization of freedom not only leads to an alternative non alienated conception of value but also explains why this conception of value is fully compatible with the free market [Natural Value](#) Friedrich Freiherr von Wieser,1893 **A**

Vocabulary of the Ancient Commentators on Aristotle Richard D. McKirahan,2021-12-16 An astounding project of analysis on more than one hundred translations of ancient philosophical texts this index of words found in the Ancient Commentators on Aristotle series comprises some 114 000 entries It forms in effect a unique dictionary of philosophical terms from the post Hellenistic period through to late antiquity and will be an essential reference tool for any scholar working on the meaning of these ancient texts As traditional dictionaries have usually neglected to include translation examples from philosophical texts of this period scholars interested in how meanings of words vary across time and author have been ill served This index fills a huge gap therefore in the lexical analysis of ancient Greek and has application well beyond the reading of ancient philosophical commentaries Bringing together the full indexes from 110 of the volumes published in Bloomsbury's Ancient Commentators on Aristotle series McKirahan has combined each word entry and analysed how many times particular translations occur He presents his findings numerically so that each meaning in turn has a note as to the number of times it is used For meanings that are found between one and four times the volume details are also given so that readers may quickly and easily look up the texts themselves [The New Jerusalem and Its Heavenly Doctrine](#)
