## Near Death Experiences:

**The Transformative Power of Near-Death Experiences** Dr. Penny Sartori, Kelly Walsh, 2017-11-14 An enthralling study of the far reaching positive effects of Near Death Experiences a well written and thought provoking book Anita Moorjani author of Dying to Be Me Near death experiences NDEs are often transformative not only on an individual level but on a collective level too This book contains a selection of inspiring stories from ordinary people whose extraordinary experiences have changed the course and direction of their lives opening each and every one of them to the power of divine love Recent years have seen a dramatic change of attitude towards NDEs Unfortunately the ongoing debates about NDEs have detracted greatly from their transformational effects and how empowering they can be for the whole of mankind For those who experience them NDEs often instill the knowledge that we are all interconnected and part of one great whole This book aims to inspire people from all walks of life creeds cultures and faiths to the transformational power of the message of NDEs and to show how the love experienced during the NDE has the capacity to heal minds bodies and souls

**After** Bruce Greyson, M.D., 2021-03-02 The world's leading expert on near death experiences reveals his journey toward rethinking the nature of death life and the continuity of consciousness Cases of remarkable experiences on the threshold of death have been reported since ancient times and are described today by 10% of people whose hearts stop The medical world has generally ignored these near death experiences dismissing them as tricks of the brain or wishful thinking But after his patients started describing events that he could not just sweep under the rug Dr Bruce Greyson began to investigate As a physician without a religious belief system he approached near death experiences from a scientific perspective In After he shares the transformative lessons he has learned over four decades of research Our culture has tended to view dying as the end of our consciousness the end of our existence a dreaded prospect that for many people evokes fear and anxiety But Dr Greyson shows how scientific revelations about the dying process can support an alternative theory Dying could be the threshold between one form of consciousness and another not an ending but a transition This new perspective on the nature of death can transform the fear of dying that pervades our culture into a healthy view of it as one more milestone in the course of our lives After challenges us to open our minds to these experiences and to what they can teach us and in so doing expand our understanding of consciousness and of what it means to be human

**Experiences Near Death** Allan Kellehear, 1996 The author compares near death experiences from all over the world revealing their similarities as well as their differences

**Coming Back to Life** P. M. H. Atwater, 1988 A discussion and study of the survivors of near death experiences and what has happened to them in the aftermath

**What Is a Near-Death Experience?** Dr. Penny Sartori, 2016-06-14 An expert answers your pressing questions about near death experiences NDEs revealing their positive effects on spirituality consciousness and our relationship with life and death Death is the only certainty in life Yet many people shy away from thinking about it until something drastic happens the diagnosis of a life threatening illness the sudden death of a loved one

which can throw us into turmoil Paradoxically contemplating death and the frequently experienced phenomenon of near death experiences NDEs can help alter our relationship with death and release us from the fear that often surrounds it After an insightful introduction about why the subject of NDEs is so worth exploring each chapter in this book addresses a key question What are the characteristics of NDEs and are there different types Are all NDEs pleasant or can some be distressing Who has NDEs and under what circumstances do they occur How do they affect the people who have them and how can this change their lives How can NDEs be scientifically explained aren't they just hallucinations What can we learn from NDEs and can they change our attitude to life and death Can NDE studies lead to an evolution in consciousness and an enhanced sense of spirituality The bestselling author of *The Wisdom of Near Death Experiences* Dr Penny Sartori brings readers on an exploratory journey through the world of NDEs challenging preconceptions and encouraging us to accept and feel empowered by death rather than living in fear of it

*Lessons from the Light* Kenneth Ring,Evelyn Elsaesser,2024-07-08 No other researcher has been able to transmit to the rest of us the true meaning and impact of near death phenomena for the planet

Bruce Greyson MD bestselling author of *After* A major contribution that offers a wealth of case materials together with balanced and insightful commentary Raymond A Moody PhD bestselling author of *Life After Life* While providing many remarkable accounts of near death experiences NDEs *Lessons from the Light* is much more than an inspiring collection of NDEs In clear language the practical lessons for living and dying are to be found from the study of these experiences Written by one of the foremost authorities on NDEs *Lessons from the Light* is a book for those looking to gain knowledge and wisdom to enhance their own lives by incorporating the insights stemming from what many people have come to believe is the ultimate spiritual experience Although *Lessons from the Light* recounts many moving stories of NDEs it is not just another book filled with inspiring testimonies it includes helpful guidance and practical exercises concerning how readers can make use of this knowledge to live with greater self insight self compassion and concern for others as well as be better prepared for death dying and bereavement Readers can easily apply what they have learned to their own lives and absorb and internalize these lessons from the Light in such a way as to lead to deep personal and spiritual transformation This edition replaces the previous edition ISBN 978 1 930491 11 3 and contains a new postscript by the author

*Wisdom of Near Death Experiences* Dr. Penny Sartori,2014-02-18 Drawing on a 5 year clinical study of near death experiences a doctor presents riveting patient stories to explore how NDEs can empower us and society as a whole By trying to pathologize NDEs are we missing out on what they can tell us about life Dr Penny Sartori is a registered nurse who began researching Near Death

Experiences NDEs in 1995 after one of her long term intensive care patients begged her to let him die in peace Inspired by this encounter she went on to research NDEs in a PhD program where she learned profound spiritual lessons and made startling discoveries that she now shares in *The Wisdom of Near Death Experiences* During her academic work Dr Sartori studied three samples of ICU patients during a five year period Here she recounts the eye opening stories of those patients who experienced NDEs and out of body experiences OBEs In one group as many as 18% of patients experienced an NDE though Patient 10 stood out among the others After being unresponsive he awoke to report he had experienced an OBE He was able to describe what happened in the hospital room while he was unconscious and claimed he met not only his deceased father but a Jesus like figure Most shocking of all he had regained the use of his hand which had been paralyzed since birth When talking about the biggest takeaways from her research Dr Sartori shares how her findings have made her question the common belief that the brain gives rise to consciousness Most importantly she has gained a deeper appreciation for death an experience she now views with less fear and anxiety In addition to detailing dozens of case studies *The Wisdom of Near Death Experiences* also discusses childhood NDEs the differences in NDEs among different cultures and the after effects of NDEs

**Dying to Live** Susan Blackmore, *Progress in medical science has increased our understanding of what happens when the brain begins to fail* Psychology delves ever more deeply into the nature of the self In *Dying to Live* Blackmore a leading expert in near death experiences explores what psychology biology and medicine have to say about this extraordinary aspect of death and dying the best resource for materialist arguments that currently exists Blackmore s book is the most up to date catalogue of misgivings about the dualist concept of self and the religionist s desire for the afterlife vis a vis experiences near death a fine book *Journal of Scientific Exploration* one of the most intelligent and comprehensive examinations of the near death experience to date For thoroughness of treatment and tidiness of theory the book is quite without equal *Journal of the American Society for Psychical Research* This book is brilliant though controversial ChoiceHer book is a model of understanding and moving in its course through a sensitive subject *New Scientist* Well documented and well researched The author s impartial treatment of diverse beliefs on the subject helps readers to see how scientific and spiritual points of view can coexist There s much to think about here *School Library Journal*

**The Science of Near-Death Experiences** John C. Hagan, 2017-01-30 What happens to consciousness during the act of dying The most compelling answers come from people who almost die and later recall events that occurred while lifesaving resuscitation emergency care or surgery was performed These events are now called near death experiences NDEs As medical and surgical skills improve innovative procedures can bring back patients who have traveled farther on the path to death than at any other time in history Physicians and healthcare professionals must learn how to appropriately treat patients who report an NDE It is estimated that more than 10 million people in the United States have experienced an NDE Hagan and the contributors to this volume engage in evidence based research on near death experiences and include physicians who themselves have

undergone a near death experience This book establishes a new paradigm for NDEs  
What is it like to die Despite the poet s plaint that no one has returned from that dark land to tell us there is a growing body of information about the nature of death Its common basic features have been confirmed and are presented in this extraordinary book the first scientific investigation of the near death experience From interviews with more than a hundred men and women who have come very close to death or have experienced clinical death a state in which vital signs such as heartbeat and respiration are entirely absent and have survived Dr Ring shows that certain elements are common He confirms that findings reported by Raymond Moody concerning the near death experience a sense of floating out of one s body of entering a dark tunnel of experiencing a panoramic life review and of encountering a brilliant golden light In this book Dr Ring elaborates on what happens at the threshold of death He tells of the frequency of these experiences discusses whether the manner in which one almost died illness accident suicide changes the nature of the experience and probes what role religion has in shaping the approach to death He shows that the near death experience is not affected by an individual s ages sex education race or religion He found however that the typical near death experience which he calls the core experience tends to unfold in a series of five stages the deeper the stages the fewer the people who reach it The experience tends to end with an encounter with what is described as a voice or presence that asks whether the person wants to return to life The aftereffects of the core experience are dramatic and profound The fear of death tends to vanish and the total impact is akin to a spiritual rebirth Publisher **The Gifts of Near-Death Experiences** Dennis Linn,Sheila Fabricant

Linn,Matthew Linn,2016-05-01 Prepare to immerse yourself in accounts of real near death experiences and discover the wisdom they have to offer you Near death experiences NDEs are common well documented and similar across cultures throughout the world Current estimates are that between four and fifteen percent of the world s population have had an NDE Some of the fascination with NDEs comes from the fact that they often result in great leaps in personal growth These leaps are characterized by the loss of the fear of death the healing of deep hurts an increase in self esteem and compassion for others a sense of union with all things and a clearer sense of how to fulfill one s purpose in life This is a book that teaches readers how to reap the benefits of NDEs without having to experience trauma In the course of their many workshops around the world the authors have discovered that when one immerses oneself in accounts of NDEs one can experience love hope healing and a sense of purpose This is the only book that systematically encourages the reader to create a spiritual and psychological healing practice based on NDEs Each chapter includes an account of a fascinating NDE followed by a series of questions meditations exercises and video links The reader is encouraged to contemplate these stories and their own lives It is truly a profound guide to both living and dying Praise for The Gifts of Near Death Experiences A fresh and exciting perspective to understanding near death experiences Everyone can benefit from learning the wisdom so clearly and eloquently expressed in this book With each turn of the page you will find a treasure trove of insights inspiration and

practical pointers that will really work in your life This outstanding book is expertly written remarkably easy to read and enthusiastically recommended Jeffrey Long M D author of the New York Times bestselling Evidence of the Afterlife The Science of Near Death Experiences The Linns have written a book that is both inspirational and practical They provide wise and gentle wisdom that lead readers into a place of growth and healing Richard Rohr O F M author of Falling Upward

*Evidence of the Afterlife* Jeffrey Long,Paul Perry,2010-01-19 There is currently more scientific evidence to the reality of near death experience NDE than there is for how to effectively treat certain forms of cancer states radiation oncologist Dr Jeffrey Long is his groundbreaking new book Evidence of the Afterlife In 1998 Dr Long and his wife Jody began the Near Death Experience Research Foundation with the goal of creating a forum for near death experiencers to share their stories Grounded in first hand evidence culled from over 1 600 verified NDE accounts Evidence of the Afterlife presents the strongest argument yet for the underlying truth of those who have died and returned to share their tales

*Near-Death Experiences* Michael Martin,2004-08 Describes different types of near death experiences along with how scientists study them and how experts explain them

Science and the Near-Death Experience Chris Carter,2010-08-23 The scientific evidence for life after death Explains why near death experiences NDEs offer evidence of an afterlife and discredits the psychological and physiological explanations for them Challenges materialist arguments against consciousness surviving death Examines ancient and modern accounts of NDEs from around the world including China India and many from tribal societies such as the Native American and the Maori Predating all organized religion the belief in an afterlife is fundamental to the human experience and dates back at least to the Neanderthals By the mid 19th century however spurred by the progress of science many people began to question the existence of an afterlife and the doctrine of materialism which believes that consciousness is a creation of the brain began to spread Now using scientific evidence Chris Carter challenges materialist arguments against consciousness surviving death and shows how near death experiences NDEs may truly provide a glimpse of an awaiting afterlife Using evidence from scientific studies quantum mechanics and consciousness research Carter reveals how consciousness does not depend on the brain and may in fact survive the death of our bodies Examining ancient and modern accounts of NDEs from around the world including China India and tribal societies such as the Native American and the Maori he explains how NDEs provide evidence of consciousness surviving the death of our bodies He looks at the many psychological and physiological explanations for NDEs raised by skeptics such as stress birth memories or oxygen starvation and clearly shows why each of them fails to truly explain the NDE Exploring the similarities between NDEs and visions experienced during actual death and the intersection of physics and consciousness Carter uncovers the truth about mind matter and life after death

*Reborn in the Light* Cherie Sutherland,1995 Through interviews with 400 near death survivors this fascinating book examines the dramatic common experiences of those who have journeyed to the edge of the after life and explores the ways in which their lives and beliefs have forever been altered Previous publisher Transworld

Australia    **Living Beyond** Ivan Rudolph,2015-12-07 What are near death experiences NDEs and how do they fit with Christianity Mysteries are explored misgivings answered at last The truths are surprising exciting and ultimately relevant for everyone Did you know that each NDE has been planned personally by God to be a course correction in the life of the returnee Even the unpleasant hellish NDEs can be beneficial Did you know that NDErs around the world have shared similar experiences Sixteen million adult Americans are a part of a giant family of at least 300 million returnees alive today Tragically many remain confused by their experiences and millions have had problems adjusting to life again on earth This book is designed to help them and their families friends and others interested in afterlife adventures The amazing experiences of many returnees from around the world are quoted and explained Fasten your seat belt for a unique and exciting ride    **The Return from Silence** D. Scott Rogo,1989    **Changed in a Flash** Elizabeth G. Krohn,Jeffrey J. Kripal,2018-10-23 This fascinating account and analysis of how one woman's near death experience sparked an awakening into psychic consciousness will inspire you to rethink humanity death and an afterlife Bruce Greyson MD University of Virginia School of Medicine When Elizabeth Greenfield Krohn got out of her car with her two young sons in the parking lot of her synagogue on a late afternoon in September 1988 she couldn't have anticipated she would within seconds be struck by lightning and have a near death experience She felt herself transported to a garden and engaging in a revelatory conversation with a spiritual being When she recovered her most fundamental understandings of what the world is and how it works had been completely transformed She was changed in a flash suddenly able to interact with those who had died and have prescient dreams predicting news events She came to believe that some early traumatic and abusive experiences had played a part in preparing her for this experience Told in matter of fact language the first half of this book is the story of Krohn's journey and the second is an interpretation and analysis by respected professor of religion Jeffrey J Kripal He places Krohn's experience in the context of religious traditions and proposes the groundbreaking idea that we are shaping our own experiences in the future by how we engage with near death experiences in the present Changed in a Flash is not about proving a story but about carving out space for serious discussion of this phenomenon

**The Handbook of Near-Death Experiences** Bruce Greyson,Janice Miner Holden,Debbie James,2009-06-22 A team of international experts presents the history recent developments and controversies in the intriguing study of near death experience Experts from around the world share the history and current state of near death experience NDE knowledge They explore controversies in the field offer stories from their research and express their hopes for the future of investigation into this fascinating phenomenon As modern medical techniques for resuscitation advance NDEs are more frequently reported These include more than the popular notions of moving through a tunnel or seeing a light They also include people once revived knowing things their knowledge of which can't currently be explained As The Handbook of Near Death Experiences Thirty Years of Investigation makes clear great controversy exists in the medical and psychological fields concerning NDEs Are they caused by

physiological changes in the brain or are they biological reactions to oxygen loss or impending death Are they a product of changing states of consciousness Or are they caused by something else altogether All of these ideas and more are discussed in this unique and comprehensive volume
