Dealing with threats that can be contained within emails. Looking at general social media security threats. Understanding security issues related specifically to Facebook. Protecting yourself against identity theft. Keeping your money safe when using online banking. Using security options to keep children safe in the online world. With 100 Top Tips Stay Safe Online and Protect Your Privacy at your side you will be one step closer to protecting yourself from the ongoing threats in the online world. Digital Habits David W.

Schropfer, 2016-07-18. Tired of all of the rules that you have to follow everyday just to be online. The internet was easier once but now it seems like we spend half of our computer time worrying about hackers, thieves, viruses and other online traps. It's time for a new approach. It's time for intuitive, reasonable habits to replace onerous, mandatory rules. It is time for simplicity to replace complexity and for confidence to replace fear. These habits are behavioral, not technical. And they are easy so you can continue to do them on a regular basis. Most importantly, it's time for an easy to understand explanation of the online traps that we are all trying to avoid. It's like a bear trap in a strip mall: the person who set the trap doesn't mind that they probably won't catch many bears because of the volume of people who will be ensnared just because they are passing by. But if you know where to look, the traps are easy to avoid. Read this book to avoid common online traps with simple daily habits.
