**Modern Rhetoric in Culture, Arts, and Media** Joachim Knape, 2012-12-19 The goal of this book is to formulate a modern theoretical approach for rhetorical studies in a variety of disciplines in the humanities media research and other cultural studies The discipline of rhetoric originally concerned itself with linguistic forms of communication and its basic theory was developed with such cases in mind With respect to this ancient tradition there are numerous books that provide a historical overview of the field There is also a wide array of introductory works and research contributions that deal with the practice of political rhetoric On the other hand only a few 20th century academics have attempted to theoretically rehabilitate rhetoric after its decline as an academic discipline in Europe in the 18th and 19th centuries and to give rhetorical theory a modern new and further reaching perspective Two notable examples have been Kenneth Burke and Brian Vickers The book begins with the assumption that rhetoric is not merely limited to linguistic action but rather is present everywhere in the communicative world Against this background this work develops a modern theory of rhetoric and demonstrates in twelve chapters how methodical rhetorical analysis can be done in selected practical fields of application Literature Music Images and Film

be what the title implies A Modern Rhetoric a working text book primarily designed for class room drill The teacher therefore will not find in it the old time formal treatise on rhetoric but on the contrary the practical application of the leading principles which underlie good composition The plan of the book is psychologic Informal composition is taken up almost at the beginning and is treated broadly as a whole before the closer study of sentences and paragraphs is introduced The pupil is thus encouraged to express himself freely before he is required to write as Quintilian puts it with force point and vehemence of style The stages through which he passes from elementary to formal composition are easy and gradual All help is given to make him feel that composition is a practical and profitable exercise and that it is not a task to be performed grudgingly and painfully The method of treatment is analytic Few of the old stereotyped rules are given but essential principles are drawn from an examination of carefully chosen extracts and the application of these principles is taught by means of abundant exercises About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Rhetorical Traditions and the Teaching of Writing** C. H. Knoblauch, Lil Brannon, 1984 The argument of this book is that the earliest tradition of Western rhetoric the classical perspective of Aristotle and Cicero continues to have the greatest impact on writing instruction albeit an unconscious impact This occurs despite the fact that modern rhetoric no longer accepts either the views of mind language and world underlying ancient theory or the concepts about discourse knowledge and communication presented in that theory As a result teachers are depending on ideas as outmoded as they are unreflectively accepted Knoblauch and Brannon maintain that the two traditions are fundamentally incompatible in their assumptions and concepts so that writing teachers must make choices between them if their teaching is to be purposeful and consistent They suggest that the modern tradition offers a richer basis for instruction and they show what teaching from that perspective looks like and how it differs from traditional teaching

Welch, 2013-11-05 Responding to the reassertion of orality in the twentieth century in the form of electronic media such as the telegraph film video computers and television this unique volume traces the roots of classical rhetoric in the modern world Welch begins by changing the current view of classical rhetoric by reinterpreting the existing texts into fluid language contexts a change that requires relinquishing the formulaic tradition acquiring an awareness of translation issues and constructing a classical rhetoric beginning with the Fifth Century B C She continues with a discussion of the adaptability of this material to new language situations including political cultural and linguistic change providing it with much of its power as well as its longevity The book concludes that classical rhetoric can readily address any situation since it focuses not only on critical stances toward discourse that already exists but also presents elaborate theories for the production of new discourse

**A Modern Rhetoric** George Earle Merkley, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1902 edition Excerpt PART I PROSE CHAPTER I DESCRIPTION 155 Various Forms of Prose Composition The various kinds of prose composition are too numerous to mention here yet if we examine the ordinary forms with which we are most familiar we shall find that the writers have tried i to make us see objects as they see them description 2 to give us an idea of something that has happened narration 3 to explain something so that we shall clearly understand it exposition 4 to convince us of some truth or to induce us to believe as they believe argument For practical purposes we may consider that all forms of

composition come under one or another of these four heads Yet these divisions are distinct in theory only in practice we regularly have two or more of them combined Narration and description are so frequently intermingled that it would be difficult to find a passage of considerable length that is purely descriptive or purely narrative Exposition and argument as well as exposition and description are likewise often intermingled 156 Literary Description A writer who attempts to describe anything must have in his own mind a picture of the thing he is going to describe In a sense he is an artist who uses words as a painter uses colors that is for the purpose of making others see an object as it appears to him The writer however has the advantage in this respect he can convey by his language impressions which the painter cannot produce by means of colors Take for example the following description of a horse from Irving s Legend of Sleepy Hollow The animal he bestrode was a broken down plough horse that had outlived almost everything but his viciousness He was gaunt and shagged with a ewe neck and a head like a

**The Ethical Fantasy of Rhetorical Theory** Ira Allen, 2018-07-10 Despite its centrality to its field there is no consensus regarding what rhetorical theory is and why it matters The Ethical Fantasy of Rhetorical Theory presents a critical examination of rhetorical theory throughout history in order to develop a unifying vision for the field Demonstrating that theorists have always been skeptical of yet committed to truth however fantastic Ira Allen develops rigorous notions of truth and of a troubled freedom that spring from rhetoric s depths In a sweeping analysis from the sophists Aristotle and Cicero through Kenneth Burke Cha m Perelman and Lucie Olbrechts Tyceta and contemporary scholars in English communication and rhetoric s other disciplinary homes Allen offers a novel definition of rhetorical theory as the self consciously ethical study of how humans and other symbolic animals negotiate constraints
