Modern Theology:

Mapping Modern Theology Kelly M. Kapic, Bruce L. McCormack, 2012-04-01 This textbook offers a fresh approach to modern theology by approaching the field thematically covering classic topics in Christian theology over the last two hundred years. The editors, leading authorities on the history of nineteenth and twentieth century theology, have assembled a respected team of international scholars to offer substantive treatment of important doctrines and key debates in modern theology. Contributors include Kevin Vanhoozer, John Webster, Veli-Matti Kärkkäinen, and Michael Horton. The volume enables readers to trace how key doctrinal questions were discussed, where the main debates lie, and how ideas developed. Topics covered include the Trinity, divine attributes, creation, the atonement, ethics, practical theology, and ecclesiology. The Blackwell Companion to Modern Theology Gareth Jones, 2008-04-15 In this major reference work, a team of the world's leading theologians provides a powerful overview of modern theology. Covers theology's relation to other disciplines, the history of theology, major themes, key figures, and contemporary issues. Can be used as the basis for an introductory course or as an essential reference source. *Mapping Modern Theology* Kelly M. Kapic, Bruce L. McCormack, 2012-04 A team of international scholars assesses the field of modern theology thematically, covering classic topics in Christian theology over the last 200 years. **Understanding Modern Theology II** Jeffery Hopper, 1987 **Modern Theology** Rachel Muers, Mike Highton, 2015-06-11 This book offers a fresh and up-to-date introduction to modern Christian theology. The long nineteenth century saw enormous transformations of theology and of thought about religion that shaped the way both Christianity and religion are understood today. Muers and Highton provide a lucid guide to the development of theology since 1789, giving students a critical understanding of their own modern assumptions, the origins of the debates, and the fields of study in which they are involved, and of major modern thinkers. *Modern Theology* introduces the context and work of a selection of major nineteenth-century thinkers who decisively affected the shape of modern theology, presents key debates and issues that have their roots in the nineteenth century but are also central to the study of twentieth and twenty-first century theology, includes exercises and study materials that explicitly focus on the development of core academic skills. This valuable resource also contains a glossary, timeline, annotated bibliographies, and illustrations. **The Place of Christ in Modern Theology** Andrew Martin Fairbairn, 1899 **Contemporary Theology: An Introduction, Revised Edition** Kirk R. MacGregor, 2020-07-28 Accessible and comprehensive. *Contemporary Theology: An Introduction* by professor and author Kirk R. MacGregor provides a chronological survey of the major thinkers and schools of thought in modern theology in a manner that is both approachable and intriguing. Unique among introductions to contemporary theology, MacGregor includes Evangelical perspectives alongside mainline and liberal developments. The influence of philosophy and the recent Christian philosophical renaissance on theology. Global contributions. Recent developments in exegetical theology. The implications of theological shifts on ethics and church life. *Contemporary Theology: An Introduction* is noteworthy for making complex

thought understandable and for tracing the landscape of modern theology in a well organized and easy to follow manner
