Modernism In Design:

Modernism in Design Paul Greenhalgh, 1997-07-01 Ten new and important essays on design cover Modernism's fortunes in Germany, Italy, Sweden, Britain, Spain, Belgium and the USA. They range in subject matter from world fairs and everyday domestic objects to American West coast architecture and French and Italian furniture. With essays by Tim Benton, Gillian Naylor, Penny Sparke, Wendy Kaplan, Clive Wainwright, Martin Gaughan, Guy Julier, Mimi Wilms, Julian Holder and Paul Greenhalgh. The object of this book is to diffuse myths. If modernism has in the past been both absurdly praised and absurdly damned, *Modernism in Design* seeks to lift it out of this cycle and to demonstrate that the modern movement could offer neither Jerusalem nor Babylon. In this the book succeeds admirably.

Designer's Journal While this collection of essays is aimed primarily at design historians and students of design history, hard-pressed practising designers and architects should make room for it on their bookshelves.

Design Modernism Christopher Wilk, 2006 Modernism flourished from 1914 to 1939 and it was a key point of reference for 20th century architecture, design and art. This work explores Modernism and design from an international perspective and reveals the ways in which it has shaped our world and its visual culture.

Making it Modern Aaron Betsky, 2016-12-15 At its root, modernism is that fundamental. It is a question of having something to represent that is of the moment. In the most radical interpretation, modernism always comes too late. The modern is that which is always new, which is to say always changing and already old by the time it has appeared. Modernism is always a retrospective act, one of documenting or trying to catch what has already appeared, an attempt to fix life as it is being lived. Modernity is just the very fact that we as human beings are continually remaking the world around us through our actions and are doing so consciously. Modernism is a monument to or memory of that act, which in its own making tries to remake the world it is pretending to represent.

Essential Modernism Dominic Bradbury, 2018 A beautiful and expansive look at Modernist design, representing iconic works including architecture, interiors, graphic design and product design. This wide-ranging survey showcases and analyzes the work of dozens of Modernist designers from those who established the International Style in the 1920s and 30s through the groundbreaking practitioners of the mid 1940s. Modernism with its powerful aesthetic and compelling philosophical framework is the twentieth century's most defining movement in design and the applied arts. International architects and designers such as Alvar Aalto, Marcel Breuer, Eileen Gray, Le Corbusier, Ludwig Mies van der Rohe and Frank Lloyd Wright revolutionized the built world and how we live in it. Their work rejected historical precedents, prioritizing function over tradition and their experimentation with new forms, materials and techniques transformed our living spaces and lifestyles and fundamentally changed the way we think about design. This lively and accessible volume includes sections on furniture, lighting, ceramics and glass, industrial and product design, graphic design and posters, houses and interiors, as well as profiles of more than seventy influential creators. The encyclopedic scope facilitates unexpected connections and offers new insights into the movement. Complete with essays by accomplished
