## **Modernism Challenges And Perspectives:**

*Modernism* Monique Chefdo, Ricardo Quinones, Albert Wachtel, 1986    *The Postmodern Challenge: Perspectives East and West*, 2023-12-04 This volume is designed to bridge a gap in the current theoretical debate about the nature scope and relevance of postmodern perspectives in the humanist and social sciences in Eastern and Western Europe. While the debate has been reasonably comprehensive and certainly abrasive in Western European and Anglophone countries it has signally failed to incorporate the viewpoints of Eastern European scholars and intellectuals. Even the current appropriation of Mikhail Bakhtin as a prophet of the postmodern is paradoxically a monologic engagement with his thought rather than a dialogic encounter of cultures. Doubtless different historical experiences ideology and social aspirations go some way to account for the weariness of Eastern Europe with postmodern challenge and its glad embrace by Western scholars. The volume comprises some fifteen essays by leading historians literary theorists and social scientists from Western and Eastern Europe and America. It has a threefold aim firstly to illuminate the distinctiveness of current Western and Eastern European theorizing about history and society secondly to reveal points of tension and disagreement and finally to open up a space for a meeting of seemingly incompatible worlds

**Kenneth Burke in Greenwich Village** Jack Selzer, 1996-12-01 Capturing the lively modernist milieu of Kenneth Burke's early career in Greenwich Village where Burke arrived in 1915 fresh from high school in Pittsburgh this book discovers him as an intellectual apprentice conversing with the moderns. Burke found himself in the midst of an avant garde peopled by Malcolm Cowley Marianne Moore Jean Toomer Katherine Anne Porter William Carlos Williams Allen Tate Hart Crane Alfred Stieglitz and a host of other fascinating figures. Burke himself who died in 1993 at the age of 96 has been hailed as America's most brilliant and suggestive critic and the most significant theorist of rhetoric since Cicero. Many schools of thought have claimed him as their own but Burke has defied classification and indeed has often been considered a solitary eccentric genius immune to intellectual fashions. But Burke's formative work of the 1920s when he first defined himself and his work in the context of the modernist conversation has gone relatively unexamined. Here we see Burke living and working with the crowd of poets painters and dramatists affiliated with Others magazine Stieglitz's 291 gallery and Eugene O'Neill's Provincetown Players the leftists associated with the magazines The Masses and Seven Arts the Dadaists and the modernist writers working on literary journals like The Dial where Burke in his capacity as an associate editor saw T S Eliot's The Wasteland into print for the first time and provided other editorial services for Thomas Mann e e cummings Ezra Pound and many other writers of note. Burke also met the iconoclasts of the older generation represented by Theodore Dreiser and H L Mencken the New Humanists and the literary nationalists who founded Contact and The New Republic. Jack Selzer shows how Burke's own early poems fiction and essays emerged from and contributed to the modernist conversation in Greenwich Village. He draws on a wonderfully rich array of letters between Burke and his modernist friends and on the memoirs of his associates to create a vibrant portrait of the young Burke's transformation from aesthete to social critic.

*Symbolism in Terrorism* Jonathan Matusitz,2014-09-16 The symbolic value of targets is what differentiates terrorism from other forms of extreme violence Terrorism is designed to inflict deep psychological wounds on an enemy rather than demolish its material ability to fight The September 11, 2001 attacks for example demonstrated the power of symbolism The World Trade Center was targeted by Al Qaeda because the Twin Towers epitomized Western civilization U.S. imperialism, financial success, modernity and freedom The symbolic character of terrorism is the focus of this textbook A comprehensive analysis it incorporates descriptions, definitions, case studies, and theories Each chapter focuses on a specific dimension of symbolism in terrorism and explains the contexts and processes that involve the main actors as well as the symbolism of both the purposes and targets of terrorism Also discussed are new religious movements which represent another important aspect of terrorism such as Aum Shinrikyō, the Japanese cult that used sarin gas in the Tokyo subway in 1995 Over forty areas of symbolism are covered throughout the chapters including physical and non physical symbolism, linguistic symbolism, the social construction of reality, rituals, myths, performative violence, iconoclasm, brand management, logos, semiotics, new media, and the global village This allows for an in depth examination of many issues such as anti globalization, honor killing, religious terrorism, suicide terrorism, martyrdom, weapons, female terrorism, public communication, visual motifs, and cyberspace Main concepts are clearly defined and followed by theory illustrated by international case studies Chapter summaries, key points, review questions, research and practice suggestions are recurring components as well This groundbreaking text encompasses all major aspects of symbolism in terrorism and will be an essential resource for anyone studying terrorism The Norton Anthology of World Literature Professor Emeritus of Near Eastern Studies Jerome W.
