challenging tasks Through the study of any tribal society and culture like Nagas one can learn many hidden lessons from them Like many other tribal people of the world the Naga culture is under threat from many circles because of which their society is now turning to a different phase of development It is highly regrettable to note the fast disappearance of the beautiful Naga cultural heritage due to influence of the westernization As its trend continues there will be hardly anything of the traditional values system and it would be difficult even to remember the past cultural history in future unless they are properly recorded today Any given culture is subject to change according to change of time As a sum total of human s effort they adjust themselves with different incoming socio economic environment and improve their modes of living As a group dynamic culture is adopted changed and learned Every culture of the world has its own charms and the Sangtam Culture is one which is enchanting with its multifarious hue beauty and richness However there is no systematic documentation of the Sangtam Cultural Heritage till today In addition the degree of disappearance is found to be very high due to various reasons All these are discussed in this book During our forefather s time the Sangtams maintained the communitarian values among the people in the community The community shared love peace helping equality unity and co operation etc But with the coming of western education modernization science and technology which mould the society not only in educating but in western tradition lifestyle dress code mass media easy and comfort life Which lead the community of Sangtam Naga to decline the communitarian values in the community After the coming of Christianity the Sangtam people could not hold both Christian Cultures along with their traditional values systems any longer It is true that the Naga traditional belief and practices could not hold the influences of Christianity As a result a total change was brought to their society due to impact of Christianity within a short period of time The common origin migration and settlement of the Sangtam Nagas their history society culture and common way of life may attract any sincere researchers writers and scholars Their folk tales folk songs dance and ceremonies arts dress ornaments institutions etc speak about the beautiful Sangtam society and culture The traditional institutes like Murong Roshengvi Vil lage Khel Village elders and use of Logdrum Singkong etc and their philosophical meaning and usage are extremely valu able The Britishers and the American Missionaries were amazed to see all these kinds of Naga Culture and society when they entered into Naga territory The main objective of writing and research about this book is to examine the features of the Sangtam society and culture from ancient to contemporary For this purpose the Sangtam culture society and their value systems was selected as a case study This beautiful hill people s culture is gradually disappearing As a result the youngsters are not concerned much about their own culture and customs For this purpose writing of such documentation was considered the need of the hour      *Archiv 61-62 Weltmuseum Wien Friends,*
