Modigliani Exposition:

Modigliani and the Artists of Montparnasse Kenneth Wayne, Amedeo Modigliani, 2002-10-08 Famous for his elongated forms graceful portraits and lush nudes Amedeo Modigliani 1884 1920 is among the most loved of the extraordinary group of artists who lived in Montparnasse in the early twentieth century Accompanying the first major Modigliani exhibition culled from important collections in North America and abroad in the United States in more than forty years this book places Modigliani and his work in the context of his friends and contemporaries all living and working in what Marcel Duchamp described as the first truly international group of artists we ever had The art is striking for its diversity Cubist Expressionist and Primitivist with Modigliani's art embodying all of these elements in all mediums painting sculpture and works on paper The other Montparnasse artists featured include Alexander Archipenko Constantin Brancusi Giorgio de Chirico Robert and Sonia Delaunay Fernand Leger Pablo Picasso and Diego Rivera Moving beyond the artist's tragically brief life to provide a fuller and richer understanding of his art this book is arranged thematically the first essay explores Modigliani's relation with Montparnasse the second addresses his relationship with the avant garde movements and figures and the third examines his lifetime exhibitions and their critical reception These essays are illustrated not only with the works of Modigliani and his peers but also with black and white photographs of Montparnasse and of the artists Also presented here for the first time are excerpts from Minnie Pinnikin the Surrealist novella written by Modigliani's lover and model Beatrice Hastings about their experiences together Hastings read excerpts from the novella at a literary event in Paris in 1916 and since then it has been considered lost This striking volume which includes extensive new documentation provides a serious examination of Modigliani's work Book Jacket *Ambassadors of Beauty* Matilde Cartolari, 2025-12-29 Italian art embodies a model of ideal beauty that is deeply rooted in western historical consciousness In the 1930s the Italian fascist regime appropriated this model to establish cultural political relations with other governments As ambassadors of fascist cultural diplomacy iconic masterpieces of Italian art then travelled in exhibitions to London Paris Belgrade and the USA Matilde Cartolari discusses exhibitions as a point of intersection between art historiography and the art market restoration and heritage protection nationalism and internationalism Her analysis sheds light on the development of Italy's fascist cultural policy from the ephemeral triumphalism of the Ethiopian campaign to the unfulfilled dream of the E42 World's Fair Jasper Galleries Presents an Exhibition of Works by Amedeo Modigliani (1884-1920).
