Mastering The Najdorf:

Mastering the Najdorf Julen Arizmendi, Javier Moreno, 2004 The Najdorf is the most popular line of the Sicilian Defence for a very good reason Black can play for a win without taking undue risks The Najdorf's fundamental soundness has been confirmed in countless top level games and in particular by Garry Kasparov's successful use of it throughout his career White has tried a wide variety of approaches against the Najdorf including quiet positional lines and the traditional main line with 6 Bg5 Recently the idea of a rapid kingside pawn advance has found favour The Najdorf's landscape changes rapidly and this presents its devotees with a complex task they must not only keep up to date with sharp theoretical lines but must also have a firm grasp of the strategies that underpin the main systems both old and new This book lends a helping hand to those who play the Najdorf or wish to take up this complex opening Two Najdorf experts from Spain present a flexible repertoire for Black including a wealth of original analysis of the critical variations They also explain the key ideas behind the Najdorf focusing on those plans that are most relevant to modern practice *Chess Life*, 2007 [100 Chess Master Trade Secrets](#)

to examine 2 b3 against the Sicilian French and Caro Kann mainlines interesting sidelines and current theory are reviewed In addition what actually happens in modern practice is surveyed The authors are optimistic for White and concentrate on the best continuations while trying to be objective It is in that spirit that they conclude that 2 b3 is sound against the Sicilian fun against the French and curious against the Caro Kann In all three cases the objective is to sabotage Black s play to take him out of his comfort zone The word sabotage has historically derived from throwing a clog into machinery or in other words throwing a monkey wrench in the works here the wrench is a queenside fianchetto White aims his light square bishop toward the right flank he typically delays Ng1 f3 so that he may play Qd1 f3 or advance his f pawn and use his light square bishop to build a full scale kingside attack Queenside castling often occurs hoping for a kingside pawn storm Yet despite all these characteristics of 2 b3 White may still retains the option of d2 d4 for a more conventional looking 1 e4 opening With 2 b3 you will have one more arrow in your theoretical quiver to battle Black And like it or not Black will be compelled to do deal with the queenside fianchetto factor
