## **Masterless Men The Vagrancy Problem In England 1560 164:**

*Framing Elizabethan Fictions* Constance Caroline Relihan, 1996 Literary historians have been giving increased attention to texts that have hitherto been largely ignored. The works of women, the disenfranchised and commoners have all benefited from such critical analysis. Similarly, letters, memoirs, popular poetry and serialized fiction have become the subject of scholarly inquiry. Elizabethan fiction has also profited from the newer odes of critical inquiry. Such texts as George Gascoigne's *The Adventurers of Master F*, *J John Lyly's Euphues*, *George Pettie's A Petite Palace of Pettie his Pleasure* or *Nicolas Breton's The Miseries of Mavilla* have often been seen as the work of hack writers, inelegant aberrations that demonstrated little about the culture of 16th century Britain or the development of English fiction. This collection of original essays draws on a wide range of critical and theoretical approaches, especially those influenced by various elements of feminism, Marxism and cultural studies. They illuminate the richness of canonical examples of Elizabethan fiction, Sidney's *Arcadia* and less widely read works Henry Chettle's *Piers Plaines*, *The Puritan Ideology of Mobility* Scott McDermott, 2022-02. *The Puritan Ideology of Mobility* Corporatism, the Politics of Place and the Founding of New England Towns before 1650 examines the ideology that English Puritans developed to justify migration, their migration from England to New England, migrations from one town to another within New England, and often their repatriation to the mother country. Puritan leaders believed firmly that nations, colonies and towns were all bodies politic that is, living and organic social bodies. However, if a social body became distempered because of scarce resources or political or religious discord, it became necessary to create a new social body from the old in order to restore balance and harmony. The new social body was articulated through the social ritual of land distribution according to Aristotelian distributive justice. The book will trace this process at work in the founding of Ipswich and its satellite town in Massachusetts. *Prose Fiction and Early Modern Sexuality, 1570-1640* C. Relihan, G. Stanivukovic, 2016-09-23. *Prose Fiction and Early Modern Sexuality 1570-1640* brings together twelve new essays which situate the arguments about the multiple constructions of sexualities in prose fiction within contemporary critical debates about the body, gender, desire, print culture, postcoloniality and cultural geography. Looking at Sidney's *Arcadia*, Wroth's *Urania*, Lyly's *Euphues*, fictions by Gascoigne, Riche, Parry and Brathwaite, as well as Hellenic romances, rogue fictions and novelle, the essays expand and challenge current critical arguments about the gendering of labour, female eroticism, queer masculinity, sodomy, male friendship, cross dressing, heteroeroticism, incest and the gendering of poetic creativity. *Europe's Welfare Traditions Since 1500, Volume 1* Thomas McStay Adams, 2023-01-26. Tracing the interwoven traditions of modern welfare states in Europe over five centuries, Thomas McStay Adams explores social welfare from Portugal, France and Italy to Britain, Belgium and Germany. He shows that the provision of assistance to those in need has faced recognizably similar challenges from the 16th century through to the present: how to allocate aid equitably and with dignity, how to give support without undermining autonomy and motivation, and how to balance private and public spheres of action and responsibility.

Across two authoritative volumes Adams reveals how social welfare administrators critics and improvers have engaged in a constant exchange of models and experience locally and across Europe The narrative begins with the founding of the Casa da Misericordia of Lisbon in 1498 a model replicated throughout Portugal and its empire and ends with the relaunch of a social agenda for the European Union at the meeting of the Council of Europe in Lisbon in 2000 Volume 1 which focuses on the period from 1500 to 1700 discusses the concepts of welfare and tradition It looks at how 16th century humanists joined with merchants and lawyers to renew traditional charity in distinctly modern forms and how the discipline of religious reform affected the exercise of political authority and the promotion of economic productivity Volume 2 examines 18th century bienfaisance which secularized a Christian humanist notion of beneficence producing new and sharply contested assertions of social citizenship It goes on to consider how national struggles to establish comprehensive welfare states since the second half of the 19th century built on the power of the vote as politicians pushed by activists and advised by experts appealed to a growing class of industrial workers Lastly it looks at how 20th century welfare states addressed aspirations for social citizenship while the institutional framework for European economic cooperation came to fruition

**Representing Prostitution in Tudor and Stuart England** Cristine M. Varhol,2000

*Late Seventeenth-century Edinburgh* Helen M. Dingwall,1994 A thematically structured technically ground breaking demographic analysis of an important early modern European city Each chapter addresses an aspect of urban life the household and family wealth and taxation employment the position of women care of the poor Throughout the book runs the constant theme of urban ness in relation to the different social and economic structures of the parishes of Edinburgh The strength of this work lies in the breadth of the range of sources that the author has exploited Poll Tax and Health Tax registers testaments burial registers and town council Kirk and craft records in the sophisticated techniques used to marshal this prodigious amount of information to construct a coherent and readable account of city life and in its subject this is one of a very few urban historical demographic studies of the period not to be based on an English city

**Authority and Consent in Tudor England** Clifford Stephen Lloyd Davies,2002 Brought together as a tribute to the distinguished Tudor historian C S L Davies the essays in this collection address key themes in the current historiography of the Tudor period These include the nature causes and consequences of change in English government society and religion the relationship of centre localities and peripheral areas in the Tudor state the regulation of belief and conduct and the dynamics

of England's relations with her neighbours The contributors colleagues and students of Cliff Davies are all leading scholars who have provided fresh and interesting essays reflecting the wide ranging inquisitiveness characteristic of his own work They seek to cross as he has done the traditional boundaries between the medieval and early modern periods and between social political and religious history A coherent collection in their own right these essays by showing the many new directions open to those studying the Tudor period provide a fitting tribute to such an influential scholar     Critical Survey ,1995

**Will Power** Richard Wilson,1993     *A Cultural Studies Approach to Two Exotic Citizen Romances by Thomas Heywood*  
Joseph Courtland,2001 Modern literary scholars have for the most part devoted little critical attention to that remarkable group of romance dramas featuring citizen heroes that flourished during the late Elizabethan period Joseph Courtland's in depth study remedies the situation by providing a fresh cultural studies approach to this innovative hybrid of chivalric romance viewing such adventure plays as literary works of colonial discourse within the mode of fantasy Based principally on an approach to early modern romance as fantasy suggested by the writings of Tzvetan Todorov Frederic Jameson and Rosemary Jackson the methodology employed in the analysis also incorporates the cultural materialist notion of Renaissance romance as colonial discourse     *The Spoken Word* Adam Fox,Daniel Woolf,2002 Previous studies on oral culture have traditionally emphasized the contradictions between oral and literate culture and focussed on individual countries or regions The essays in this fascinating collection depart from these approaches in several ways By examining not only English but also Scottish and Welsh oral culture they provide the first pan British study of the subject The authors also emphasize the ways in which oral and literate culture continued to compliment and inform each other rather than focusing exclusively on their incompatibility or on the inevitable triumph of the written word     **Citizens Without Shelter** Leonard C. Feldman,2004 Analyzes the evolution of homelessness policy in terms of local rules and regulations and judicial challenges to them Blends political theories with discussions of the real struggles of citizens who are deprived of their full rights     **Shakespeare: the Roman Plays** Graham Holderness,Bryan Loughrey,Andrew Murphy,1996 This new selection of influential wide ranging essays offers an accessible at times provocative introduction to a key area of the Shakespearean canon It addresses individual plays the wider significance of Rome for Shakespeare's contemporaries     English Literary Renaissance ,1995
