Masters Of The Poster 18961900 Les Maitres Delaffiche:

Masters of the Poster, 1896-1900 Roger Marx, 1977 The Poster Ruth E. Iskin, 2014-10-07 The Poster Art Advertising Design and Collecting 1860s 1900s is a cultural history that situates the poster at the crossroads of art design advertising and collecting Though international in scope the book focuses especially on France and England Ruth E Iskin argues that the avant garde poster and the original art print played an important role in the development of a modernist language of art in the 1890s as well as in the adaptation of art to an era of mass media She moreover contends that this new form of visual communication fundamentally redefined relations between word and image poster designers embedded words within the graphic rather than using images to illustrate a text Posters had to function as effective advertising in the hectic environment of the urban street Even though initially commissioned as advertisements they were soon coveted by collectors Iskin introduces readers to the late nineteenth century iconophile a new type of collector curator archivist who discovered in poster collecting an ephemeral archaeology of modernity Bridging the separation between the fields of art design advertising and collecting Iskin s insightful study proposes that the poster played a constitutive role in the modern culture of spectacle This stunningly illustrated book will appeal to art historians and students of visual culture as well as social and cultural history media design and advertising

The Nabis and Intimate Modernism Katherine M. Kuenzli, 2017-07-05 Providing a fresh perspective on an important but underappreciated group of late nineteenth century French painters this is the first book to provide an in depth account of the Nabis practice of the decorative and its significance for twentieth century modernism Over the course of the ten years that define the Nabi movement 1890 1900 its principal artists included Edouard Vuillard Pierre Bonnard Maurice Denis Paul Sérusier and Paul Ranson The author reconstructs the Nabis relationship to Impressionism mass culture literary Symbolism Art Nouveau Wagnerianism and a revolutionary artistic tradition in order to show how their painterly practice emerges out of the pressing questions defining modernism around 1900 She shows that the Nabis were engaged nonetheless

with issues that are always at stake in accounts of nineteenth century modernist painting issues such as the relationship of high and low art of individual sensibility and collective identity of the public and private spheres The Nabis and Intimate Modernism is a rigorous study of the intellectual and artistic endeavors that inform the Nabis decorative domestic paintings in the 1890s and argues for their centrality to painterly modernism The book ends up not only re positioning the Nabis to occupy a crucial place in modernism s development from 1860 to 1914 but also challenges that narrative to place more emphasis on notions of decoration totality and interiority

The Politics Of Resentment , The establishment of the Third Republic in France in the 1870s swept the nobility from power and established republican government supported by the professional classes the peasantry and small businessmen Paris shopkeepers at first allied themselves with this new republican order but then broke away from it claiming it favored the rise of large department stores that threatened their livelihood This work offers a broader interpretation of their protests within the context of general social and cultural developments providing a colorful and convincing description and analysis of Parisian politics in this critical era of French history Historians previous explanations of shopkeeper discontent during the period have centered on the rise of the department store In contrast Nord shifts the locus of interpretation to the impact of

Baron Haussmann's rebuilding of Paris and the economic crisis of the 1880s on the Paris retail market. In addition, the author challenges the assumption that retailers' protest translates directly into a politics of reaction. His interpretation is an example of social history at its best and will appeal to those interested in France, social movements, and nineteenth-century Europe. Available for the first time in paperback, this edition includes a new introduction by the author that discusses the book's themes: politics of consumption, nationalism, anti-Semitism in terms of current historiographical concerns. He also examines whether our own era is not one of political realignment with a potential for right-wing extremism.
