Historical Dictionary of British Cinema Alan Burton, Steve Chibnall, 2013-07-11 British cinema has been around from the very birth of motion pictures from black and white to color from talkies to sound and now 3D it has been making a major contribution to world cinema Many of its actors and directors have stayed at home but others ventured abroad like Charlie Chaplin and Alfred Hitchcock Today it is still going strong the only real competition to Hollywood turning out films which appeal not only to Brits just think of Bridget Jones while busily adding to franchises like James Bond and Harry Potter So this Historical Dictionary of British Cinema has a lot of ground to cover This it does with over 300 dictionary entries informing us about significant actors producers and directors outstanding films and serials organizations and studios different films genres from comedy to horror and memorable films among other things Two appendixes provide lists of award winners Meanwhile the chronology covers over a century of history These parts provide the details countless details while the introduction offers the big story And the extensive bibliography points toward other sources of information Seeing Through Music Peter Franklin, 2011-08 Seeing Through Music levels the critical playing field between film music and so called serious music reflecting upon gender related ideas about music and modernism as much as about film It proposes a history of twentieth century music that would include the scores of a number of the major Hollywood movies discussed here

Hitchcock and the Spy Film James Chapman, 2017-11-30 Film historian James Chapman has mined Hitchcock s own papers to investigate fully for the first time the spy thrillers of the world s most famous filmmaker Hitchcock made his name as director of the spy movie He returned repeatedly to the genre from the British classics of the 1930s including The 39 Steps and The Lady Vanishes through wartime Hollywood films Foreign Correspondent and Saboteur to the Cold War tracts North by Northwest Torn Curtain and his unmade film The Short Night Chapman s close reading of these films demonstrates the development of Hitchcock s own style as well as how the spy genre as a whole responded to changing political and cultural contexts from the threat of Nazism in the 1930s and 40s to the atom spies and double agents of the post war world

Past and Present James Chapman, 2005-09-23 This ground breaking book takes as its focal point

director Ken Loach's view that The only reason to make films that are a reflection on history is to talk about the present In the first book to take on this major genre in all its complexity James Chapman argues that historical films say as much about the times in which they are made as about the past they purport to portray Through in depth case studies of fourteen key films spanning the 1930s up to the turn of the twenty first century from *The Private Life of Henry VIII* and *Zulu* to *Chariots of Fire* and *Elizabeth* Chapman examines the place of historical films in British cinema history and film culture Looking closely at the issues that they present from gender class and ethnicity to militarism and imperialism he also discusses controversies over historical accuracy and the ways in which devices such as voice overs title captions and visual references to photographs and paintings assert a sense of historical verisimilitude Exploring throughout the book the dialectical relationship between past and present Chapman reveals how such films promote British achievements but also sometimes question them and how they project images of Britishness to audiences both in the UK and internationally
