Objects, Audiences, and Literatures Carma Gorman, David Raizman, 2009-03-26 In *Objects Audiences and Literatures Alternative Narratives in the History of Design* five art historians tap a variety of unexpected literary sources to reveal the dynamic relationship between intention and reception in architecture interior design costume and the decorative arts The essays consider both handcrafted and serially produced objects from the eighteenth to the mid twentieth centuries including a japanned high chest from colonial Boston German and Austrian Artistic Dress Tiffany lamps the architecture of the 1925 Exposition Internationale des Arts Décoratifs et Industriels in Paris and the dream homes portrayed in two popular postwar American films The five chapters demonstrate that a complex and even contradictory mixture of stakeholders determines the meanings of designed objects Each author examines popular forms of literature in order to reveal the preconceptions that viewers brought with them to the experience of looking at and using objects The authors' attentiveness to viewers' class and gender provides a methodological model for approaching the study of reception within the field of design history *Objects Audiences and Literatures* introduces a new generation of historians of design and decorative arts with five superb case studies Looking beyond the laconic historical data that has formed the backbone of scholarship in this field these authors plumb popular culture films advertisements and especially novels to understand contemporaneous meanings of objects Using these polyglot sources with an eye particularly on narrative and gender they suss out heretofore unnoticed dissonances between the prescriptive pronouncements of avant garde insiders and the reception that design innovation found in broader publics These wide ranging essays are marked by imagination exuberance and acuity I look forward to using it in my teaching

Margaretta M Lovell University of California Berkeley This is a welcome addition to the literature that addresses the growing scholarly and popular interest in design and design history Drawing on an impressive array of examples the authors explore how class gender and cultural context shaped the reception of architecture interior design costume and the decorative arts at various moments in the modern era The collection is noteworthy for the way each of the contributors draws upon literary sources for insights into design and material culture that transcend the specific examples under review Models of methodological rigor these essays should appeal to scholars in multiple disciplines

Master Works of Louis Comfort Tiffany Renwick Gallery, National Museum of American Art (SI, Smithsonian Institution, Washington D.C.), 1990 *Louis Comfort Tiffany* Alastair Duncan, Louis Comfort Tiffany, 1992 Tiffany's ecclesiastical and secular windows are examined in depth and pictured in lush color as are many of his most elaborate and beautiful lampshades vases and smaller objects Important works in private collections rarely or never before pictured are reproduced here Radiance and Symbolism in Modern Stained Glass Liana De Girolami Cheney, 2016-02-08 This book focuses on the aesthetic symbolic and cultural concepts of radiance and beauty in stained glass in modern art global exchanges between stained glass artists in Europe and the Americas and the transformation of stained glass from religious decoration to secular material culture Unique features of the book include its geographic breadth encompassing England France Italy USA and Mexico and its inclusion of American female glassmakers Essays consider how stained glass became an art form during this time and show how the narrative for the figurative design drew from the Bible mythology history literature and the symbolism of the time including popular culture such as ecology and materiality Written for students and the general public interested in the humanities literature history art history and new media and popular culture this book examines the visual beauty and symbolism of stained glass windows in Europe and American cultures during the late nineteenth and early twentieth centuries the modern era **The Jewelry and Enamels of Louis Comfort Tiffany** Janet Zapata, 1993 Louis Comfort Tiffany's spectacular and highly individual Art Nouveau lamps favrile glass bases and stained glass windows have long been admired throughout the world Recently however his considerable accomplishments in other areas of the decorative arts have become more widely known and equally praised This new book is the first to concentrate on Tiffany's stunning work with fine jewelry and enamel Art Nouveau and the Classical Tradition Richard Warren, 2017-12-14 Art Nouveau was a style for a new age but it was also one that continued to look back to the past This new study shows how in expressing many of their most essential concerns sexuality death and the nature of art its artists drew heavily upon classical literature and the iconography of classical art It challenges the conventional view that Art Nouveau's adherents turned their backs on Classicism in their quest for new forms Across Europe and North America artists continued to turn back to the ancient world and in particular to Greece for the vitality with which they sought to infuse their creations The works of many well known artists are considered through this prism including those of Gustav Klimt Aubrey Beardsley and Louis Comfort Tiffany But breaking new ground in its comparative approach this study also considers some of the movement's less well known painters sculptors jewellers and architects including in central and eastern Europe and their use of classical iconography to express new ideas of nationhood Across the world while Art Nouveau was a plural style drawing on multiple influences the Classics remained a key artistic vocabulary for its artists whether blended with Orientalist

and other iconographies or preserving the purity of classical form **Reforming America** Jeffrey A. Johnson, 2017-03-20
Presenting a detailed look at the individuals, themes and moments that shaped this important Progressive Era in American history, this valuable reference spans 25 years of reform and provides multidisciplinary insights into the period. During the Progressive Era, influential thinkers and activists made efforts to improve U.S. society through reforms both legislative and social on issues of the day such as working conditions of laborers, business monopolies, political corruption, and vast concentrations of wealth in the hands of a few. Many Progressives hoped for and tirelessly worked toward a day when all Americans could take full advantage of the economic and social opportunities promised by U.S. society. This two-volume work traces the issues, events, and individuals of the Progressive Era from approximately 1893 to 1920. The entries and primary sources in this set are grouped thematically and cover a broad range of topics regarding reform and innovation across the period, with special attention paid to important topics of race, class, and gender reform and reformers. The volumes are helpfully organized under five categories: work and economic life, social and political life, cultural and religious life, science, literature, and the arts, and sports and popular culture. **Encyclopedia of American Art Before 1914** Jane Turner, 2000
This alphabetically arranged volume covers all the major artistic developments in the USA from the Colonial period until 1914, with the start of World War I. Landmarks of Twentieth-century Design Kathryn B. Hiesinger, George Marcus, 1993
Hiesinger and Marcus, Philadelphia Museum of Art, have assembled 400 examples of industrial and graphic design, furniture, lighting, appliances, and decorative objects. 100 photos in color. Arrangement is chronological. About half the average page is given to photos. Artifacts are related back and forward in time. Direct cross references would save index use. Good book. The title is accurate. Landmarks does not suggest beauty. The 20th c. has produced myriad design horrors. Annotation copyright by Book News Inc., Portland, OR.
