The Complete Conductor's Guide to Laban Movement Theory Lisa A. Billingham,2009 Movement is at the core of conducting and Rudolf Laban 1879-1958 is considered perhaps the most influential scholar of human movement. His ideas have shaped the practice of dancers for generations but are significantly less known among conductors. This concise book is a thoughtful and practical introduction to Laban's life and theories perfect for conductors seeking to better connect their understanding of a musical score to their actions on the podium. Body Movement

Irmgard Bartenieff,Dori Lewis,2013-10-08 Irmgard Bartenieff has a profound knowledge of the human body and how it moves. I am delighted that this will now be made available to many more people. George Balanchine of Director New York City Ballet Irmgard Bartenieff's pioneering work in the multiple applications of Laban analysis has had a transforming influence on many areas of movement training. Her careful and detailed development of the spatial principles into active corrective work has illuminated and altered the training of people as varied as dancers, choreographers, physical therapists, movement and dance therapists, and psychotherapists. Anthropologists and non verbal communication researchers have found their world view necessarily altered by her fundamental innovations. The field of body mind work will need to adapt to include her clear working through of basic principles. Kayla Kazahn Zalk of President American Dance Guild

The Oxford Handbook of Dance and Reenactment Mark Franko,2017-11-15 The Oxford Handbook of Dance and Reenactment brings together a cross section of artists and scholars engaged with the phenomenon of reenactment in dance from a practical and theoretical standpoint. Synthesizing myriad views on danced reenactment and the manner in which this branch of choreographic performance intersects with important cultural concerns around appropriation, this Handbook addresses originality, plagiarism, historicity and spatiality as it relates to cultural geography. Other topics treated include transmission as a heuristic device, the notion of the archive as it relates to dance and as it is frequently contrasted with embodied cultural memory, pedagogy, theory of history, reconstruction as a methodology, testimony and witnessing theories of history as narrative and the impact of dance on modernist literature and relations of reenactment to historical knowledge and new media
