Scale Car Modelling Mat Irvine,2012-05-01 Cars have always appealed as model subjects as unlike aeroplanes or military subjects the real thing is likely to be sitting outside the modeller s house From the first car kits produced in the early 1950s mainly dominated by American machinery we now have a choice of automotive examples from around the world The joint scale of 1 24 1 25 dominates car models and it is these scales that will mostly be found in this book from stock builds to race cars to wild customs In addition although injection styrene is the main material of choice there are specialist builds using resin white metal and photo etched parts The book includes detailed step by step guides for Building out of the box Customs and conversions Applying decals Dealing with resin Wiring and engines Salvaging old kits A dented ride for 007 NASA s Hot Road Dirtying a dirt track racer An alien homage to Roth

The Car Modeller's Handbook Mat Irvine,1991-01 **The Car Modeller's Handbook** Nick J. Wigman,Daryl Keenan,Alan Bottoms,2007-08-01

Cars are now more popular subjects for modelers than they have ever been An ever increasing range of kits allows the modeler to build a wide variety of highly detailed road and racing cars Of paramount importance to the car modeler is the

perfection of finish but this can be difficult to attain without the necessary experience This book written by three expert car modelers sets out everything you need to know to produce a superb model car in one of the popular scales Covering construction detailing modification and finishing this book will appeal to the beginner and the intermediate level modeler anxious to improve his or her skills
