**Science Journalism** Martin Angler, 2017-06-14 Science

Journalism: An Introduction gives wide ranging guidance on producing journalistic content about different areas of scientific research. It provides a step by step guide to mastering the practical skills necessary for covering scientific stories and explaining the business behind the industry. Martin W Angler, an experienced science and technology journalist, covers the main stages involved in getting an article written and published, from choosing an idea, structuring your pitch, researching and interviewing to writing effectively for magazines, newspapers and online publications. There are chapters dedicated to investigative reporting, handling scientific data and explaining scientific practice and research findings to a non specialist audience. Coverage in the chapters is supported by reading lists, review questions and practical exercises. The book also includes extensive interviews with established science journalists, scholars and scientists that provide tips on building a career in science journalism, address what makes a good reporter and discuss the current issues they face professionally. The book concludes by laying out the numerous available routes into science journalism, such as relevant writing programs, fellowships, awards and successful online science magazines. For students of journalism and professional journalists at all levels, this book offers an invaluable overview of contemporary science journalism with an emphasis on professional journalistic practice and success in the digital age.
