## **Matchbook Essays In Deconstruction:**

**Matchbook** David Wills,2005 Matchbook consists of nine essays written around or in response to work published by Jacques Derrida since 1980 The focal point of the essays is the Envois which forms part of Derrida s Post Card Particular attention is paid to how that text articulates with the ethical and political emphases of Derrida s more recent work but also to its autobiographical conceit The incendiary reference of the book s title underscores deconstruction s engagement with questions of reading relations between slow reading and the speed of technology and the political effects of an internationalized deconstruction in a globalized culture It is in terms of what deconstruction can have us think about the speed of technology and technologies of reading that Derrida s work has made one of its most important contributions to philosophy and literary and cultural studies The book concentrates on that as proof of the continued relevance of such work

**Derrida and the Future of the Liberal Arts** Mary Caputi,Vincent J. Del Casino, Jr.,2013-04-11 Derrida and the Future of the Liberal Arts highlights the Derridean assertion that the university must exist without condition as a bastion of intellectual freedom and oppositional activity whose job it is to question mainstream society Derrida argued that only if the life of the mind is kept free from excessive corporate influence and political control can we be certain that the basic tenets of democracy are being respected within the very societies that claim to defend democratic principles This collection contains eleven essays drawn from international scholars working in both the humanities and social sciences and makes a well grounded and comprehensive case for the importance of Derridean thought within the liberal arts today Written by specialists in the fields of philosophy literature history sociology geography political science animal studies and gender studies each essay traces deconstruction s contribution to their discipline explaining how it helps keep alive the unconditional contrapuntal mission of the university The book offers a forceful and persuasive corrective to the current assault on the liberal arts

**The Traces of Jacques Derrida's Cinema** Timothy Holland,2024 Situated at the intersection of film and media studies literary theory and continental philosophy The Traces of Jacques Derrida s Cinema provides a trenchant account of the role of cinema in the oeuvre of one of the most influential philosophers of the twentieth century Jacques Derrida 1930 2004 The book is animated by Derrida s self confessed passion for the movies his reluctance to write about film despite the range of his corpus and the generative encounters arising between his legacy and the field of film and media studies as a result Given the expanse of its references interdisciplinarity and consideration of Derrida s approach to the experience of both spectatorship and the act of being filmed The Traces of Jacques Derrida s Cinema contributes to the ongoing close analyses of the philosopher s work while also providing a rigorous introduction to deconstruction Author Timothy Holland interweaves historical and speculative modes of research and writing to articulate the peripheral yet surprisingly crucial place of the cinematic medium for Derrida and his philosophical enterprise The outcome is a meticulously detailed survey of the centers and margins of Derrida s oeuvre that include forays into such terrain as his notable

appearances in films an unrealized project on cinema and belief that Derrida proposed in a 2001 interview the correspondences between the strategies of deconstruction and the traditions homecomings and wordplay of David Lynch s cinematic media and the questions wedded to the future of film studies amid the vicissitudes of the modern virtual university Ultimately Holland pursues the thinking activated by the flickering of Derrida s cinema not only the absence and presence of film in Derrida s professional and personal life but also the rigor of academic discourse and the pleasures of the movies ghosts and technology religious faith and scientific knowledge and ruination and survival as a critical chance for reflection

**Heart of Darkness** Joseph Conrad,2011-03 This volume presents the text of the 1921 Heinemann edition of Conrad s classic short novel along with documents that place the work in historical context and critical essays that read Heart of Darkness from several contemporary critical perspectives The text and essays are complemented by biographical and critical introductions bibliographies and a glossary of critical and theoretical terms In this third edition the section of cultural documents and illustrations is entirely new as are two recent exemplary critical essays by Gabrielle McIntire and Tony C Brown that synthesize a variety of current critical approaches **The Everyday** Justin Derry,Martin Parrot,2014-10-17 The Everyday Experiences Concepts and Narratives is an inter disciplinary book problematizing the slippery notion of Everyday Life Contributing to a tradition of 20th century scholarly work focusing on Everyday Life this book specifically attends to the multiple ways that the quotidian aspects of our day to day existence become knotted into situated narratives and concepts In their depth and breadth the chapters compiled here all work with an understanding of everyday life that is i
