## **Material Cultures Why Some Things Matter:**

**Material Cultures** Daniel Miller,2002-09-10 This volume is an ethnographic study of material cultures Incorporating local and global dimensions a team of scholars explore the changing experiences of cultures in locations as disparate as the Philippines and Northern Ireland Material culture and consumption studies have undergone something of a renaissance recently This study provides an up to date analysis of a developing field in sociological and anthropological based courses This book is intended for undergraduate MA courses on material culture and consumption within cultural studies and anthropology degree schemes

**Material Cultures** Daniel Miller,1998 The field of material culture has been historically well established but has recently enjoyed something of a renaissance Methods once dominated by Marxist oriented analyses in which objects are understood as commodities and by the study of objects as symbols are starting to give way to a more ethnographic approach to artifacts This orientation to practice is the cornerstone of the essays presented in Material Cultures Why Some Things Matter The diversity of these essays is mediated by their common commitment to ethnography with a material focus Against the established practice of examining objects as mirages of media or language Material Cultures emphasizes how the study of objects not only contributes to an understanding of artifacts but is also an effective instrument for the study of social values and contradictions

**Material Cultures** Daniel Miller,1998-02-17 A collection of essays which present a balanced survey between theoretical discussions on the one hand and case study research on the other This volume is an ethnographic study of material cultures

**Handbook of Material Culture** Chris Tilley,Webb Keane,Susanne Kuechler,Mike Rowlands,Patricia Spyer,2006-01-05 The study of material culture is concerned with the relationship between persons and things in the past and in the present in urban and industrialized and in small scale societies across the globe The Handbook of Material Culture provides a critical survey of the theories concepts intellectual debates substantive domains and traditions of study characterizing the analysis of things It is cutting edge rather than simply reviewing the field as it currently exists It also

attempts to chart the future the manner in which material culture studies may be extended and developed The Handbook of Material Culture is divided into five sections Section I maps material culture studies as a theoretical and conceptual field Section II examines the relationship between material forms the human body and the senses Section III focuses on subject object relations Section IV considers things in terms of processes and transformations in terms of production exchange and consumption performance and the significance of things over the long term Section V considers the contemporary politics and poetics of displaying representing and conserving material and the manner in which this impacts on notions of heritage tradition and identity The Handbook charts an interdisciplinary field of studies that makes an unique and fundamental contribution to an understanding of what it means to be human It will be of interest to all who work in the social and historical sciences from anthropologists and archaeologists to human geographers to scholars working in heritage design and cultural studies

**"Women and the Material Culture of Needlework and Textiles, 1750?950 "** Maureen Daly

Goggin,2017-07-05 Rejecting traditional notions of what constitutes art this book brings together essays on a variety of fiber arts to recoup women s artistic practices by redefining what counts as art Although scholars over the last twenty years have turned their attention to fiber arts redefining the conditions practices and products as art there is still much work to be done to deconstruct the stubborn patriarchal art craft binary With essays on a range of fiber art practices including embroidery knitting crocheting machine stitching rug making weaving and quilting this collection contributes to the ongoing scholarly redefinition of women s relationship to creative activity Focusing on women as producers of cultural products and creators of social value the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles Each essay also examines the ways in which needlework both performs gender and in turn constructs gender Moreover in concentrating on and theorizing material practices of textiles these essays reorient the study of fiber arts towards a focus on process the making of the object including the conditions under which it was made by whom and for what purpose as a way to rethink the fiber arts as social praxis

separately behind closed disciplinary doors Within archaeology agency has been characterized as a uniquely human attribute and a means of incorporating individual intentionality into theoretical discourse In other domains however notions of non human and material agency have been finding currency and it is our aim to introduce some of these themes into archaeology and develop a non anthropocentric approach to agency It is anticipated that such a perspective will not only help us achieve more convincing interpretations of the past giving a more active role to material culture but also throw new light on the changing role of artifacts in the present and the future This book is a groundbreaking attempt to address questions of non human and material agency from a wide range of perspectives and disciplines archaeology anthropology sociology cognitive science philosophy and economics The editors and authors demonstrate that a distributed relational approach to agency incorporating both humans and artifacts has important ramifications for how we understand material culture
