Materials for a Study on Twelfth Century Scholasticism Franco Giusberti,1982 *A New Material Interpretation of Twelfth-Century Architecture* Jason Crow,2025-10-01 Today we perceive Gothic cathedrals as light filled forms representing the sacred. The colored light projected from brightly colored stained glass windows onto the walls and floors of these buildings suggests the presence of divinity. Suger 1081-1151CE the abbot of the monastery of Saint Denis is credited with originating Gothic architecture. However focus on form and structure has elided attention to the material out of which medieval churches were made. When Suger describes the early church he was replacing he says that the gold and gems it contained beamed outwardly with a gleaming light that filled the eye. When he restored his church and filled it with the shining souls of his ecclesia he repeated God's divine act of creation. His restored church imitated the precious stones that could be shaped and polished to reveal divine light. By crafting stone Suger fulfilled the divine plan to make heaven on earth. This book reassesses the origins and significance of Gothic architecture. Approaches the interpretation of the twelfth century church through its materiality. Integrates the twelfth century conceptualization of architecture within art science and theology.

*Medieval Architecture, Medieval Learning* Charles M. Radding, William W. Clark,1992-01-01 The 11th and 12th centuries witnessed a transformation of European culture from architecture and the visual arts to history philosophy theology and even law.

Mediaeval Commentaries on the Sentences of Peter Lombard ,2009-12-16 Continuing a project begun in 2002 with the publication of volume 1 of Mediaeval Commentaries on the Sentences of Peter Lombard this volume fills some major lacunae in current research on the standard textbook of medieval theology. Twelve chapters study the tradition of the Sentences from the first glosses of the twelfth century through Martin Luther's marginal notes. The questions addressed in these chapters throw light on the history of the Sentences literature as a whole focusing on changes in literary structure and methodology as much as on matters of textual transmission and doctrinal content. The conclusion synthesizes the individual contributions succinctly presenting the current state of our knowledge of the main structures that characterize the tradition of the Sentences.

Studies in Scholasticism Marcia L. Colish,2024-10-28 Spanning thirty years the papers brought together in this volume reflect three of Professor Colish's interests as a historian of medieval scholastic thought. The first group of studies represent investigations that flowed into and out of the research on Peter Lombard d 1161 and his contemporaries that culminated in her book Peter Lombard 1994. Following the publication of that work she next sought to discover how Peter's theology became mainstream Paris theology in the period between Lombard's death and the early 13th century resulting in the second group of papers in this collection. Finally the last two papers offer reflections on broader interpretive issues considering ways in which medievalists ought to reconsider their general understanding of the

*A Theology of Higher Education* Mike Higton,2012-03-16 In this book Mike Higton provides a constructive critique of Higher Education policy and practice in the UK the US and beyond from the standpoint of Christian theology He focuses on the role universities can and should play in forming students and staff in intellectual virtue in sustaining vibrant communities of inquiry and in serving the public good He argues both that modern secular universities can be a proper context for Christians to pursue their calling as disciples to learn and to teach and that Christians can contribute to the flourishing of such universities as institutions devoted to learning for the common good In the process he sets out a vision of the good university as secular and religiously plural as socially inclusive and as deeply and productively entangled with the surrounding society Along the way he engages with a range of historical examples the medieval University of Paris the University of Berlin in the nineteenth century and John Henry Newman's work in Oxford and Dublin and with a range of contemporary writers on Higher Education from George Marsden to Stanley Hauerwas and from David Ford to Rowan Williams

**Biblical Interpretation from the Church Fathers to the Reformation** Karlfried Froehlich,2010 The history of biblical interpretation has attracted considerable attention in recent decades One area of research in which even the most basic questions are still under debate is the phenomenon of the biblical *Glossa Ordinaria* the standard Bible commentary used by Christian theologians from the twelfth century to the Reformation Part I unites the author's major contributions to *Glossa* studies its origin its false ascription to Walahfrid Strabo its use among the preachers of the thirteenth and fourteenth century and the Reformers both Catholic and Protestant of the sixteenth Part II concentrates on the image of two central New Testament figures the Apostles Peter and Paul in biblical exegesis The studies illuminate the pivotal role in the history of the church played by certain shifts in the understanding of Petrine texts and trace conflicting tendencies in the interpretation of Paul down to the Reformation of

the sixteenth century The Harvard Theological Review, 1922 **Methods and the Medievalist** Marko Lamberg, 2008 The field of medieval studies has shifted towards a growing degree of inter and multidisciplinarity during the recent decades The concept of medieval studies covers in fact a multitude of disciplines some of them being loyal to their long established traditions whereas others are very new and borrow methods from other branches of the humanities or even from modern natural or social sciences Since this means not only new possibilities but also new challenges sources and methodology should obviously concern anyone engaged in the history and culture of the Middle Ages Regardless of what aspects of the medieval world a scholar is dealing with his or her study has much to gain from a source pluralistic approach in order to be able to understand and even combine different types of sources a scholar must be aware of what methods are relevant and available and how they can be adapted and applied This collection of essays presents a comprehensive overview of current and fresh approaches to the history of medieval Europe The topics include among other things the complex relationship between the spoken and the written word explorations in social and geographic space layers and mental images perceptible in medieval texts source edition techniques relics as visual and tangible items not to mention the possibilities offered by prosopography zooarchaeology and the natural sciences Also the question and significance of ethics an ever more important issue in present day academic circles is discussed The contributors to this volume themselves form a very inter and multidisciplinary team although they can all be labeled as medievalists they in fact they work within different disciplines and in several different research units in different countries Geographically several parts of Europe are covered in the essays not only the westernmost part of the continent but also the poorly known eastern and northern parts as well This diversity makes the collection worthwhile reading for students and scholars alike

**The Immanent Person of the Holy Spirit from Anselm to Lombard** Matthew Knell, 2009 This study shows that there has not yet been any

comprehensive study of the person of the Holy Spirit in the twelfth century and that such a study has something to add to concepts of twelfth century thought as well as modern debates in pneumatology The richness of debate that took place with the advent of scholasticism and its clashes with more traditional approaches to Christian study raised issues about western conception of the Spirit that were both grounded in Scripture and the church fathers writings and thoroughly tested by reason and debate
