

DESIGNING FOR ALL AGES & ABILITIES

Every design must meet the needs of a diverse range of potential bike riders. Across North America, however, many existing bike facility designs are not comfortable for only the luckiest people taking and exclude many who might otherwise ride.

IN ALL AGES & ABILITIES people have a right to safe, comfortable and usable ways for themselves and their families to get to work, school, and other destinations. Safe, usable, and comfortable bike facilities are essential for a healthy, sustainable, and equitable community. This guide provides a framework for designing bike facilities that are safe, usable, and comfortable for all ages and abilities.

Third Edition

The third edition of the Urban Bikeway Design Guide revised (existing) bicycling facilities, added a chapter on (existing) transit, and added a chapter on (existing) walking. The guide is intended to be used by transportation planners, engineers, and other professionals who are involved in the design and construction of urban bikeways.

OUR VISION

Cities where safe, sustainable, and equitable transportation systems connect communities to the resources they need to thrive
