Very helpful product - especially for reviewing examples where you need to see more content on a single screen. It works seamlessly. And the author is very quick with updates - note Russel's post on May 2nd and how quickly the author responded with a fix. Highly recommend.

Update: Yes, works perfectly, thank you!!

Original: Does this still work (5/3)? I had a separate CSS that worked fine until ~30 mins ago. Tried this, but I'm not seeing the boxes shown in the video. I'm using Chrome on Win10.

AI in Popular Culture Dal Yong Jin, 2025-12-08 This book examines the transformative impact of generative AI on cultural production with a particular focus on how AI technologies like ChatGPT are reshaping the creation of popular culture. Through a comprehensive analysis of both Global North and South perspectives, the book offers critical insights into AI governance, ethical considerations, and the future of cultural production in an increasingly AI-integrated creative landscape. Tracing the evolution of AI in cultural industries from its early representations in films to its current active role in content creation across various media including film, television, music, and animation, the book explores how AI has shifted from being merely depicted in cultural works to becoming an integral tool in the creative process, from pre-production to post-production stages. It critically analyzes three core concepts: creativity, control, and credentials (3Cs) in the context of AI-driven cultural production, putting focus on the examination of precarious creativity, the tension between human creative expression and AI-generated content. The work addresses crucial concerns about labor rights, job security, and creative control in the cultural industries. This book will interest graduate students and researchers in media studies, cultural studies, anthropology, globalization studies, sociology, and science and technology studies (STS), as well as interested policymakers and practitioners interested in AI's impact on the creative industries.

Dashboards That Deliver Andy Cotgreave, Amanda Makulec, Jeffrey Shaffer, Steve Wexler, 2025-09-23 A comprehensive guide to building and deploying dashboards that deliver. *Dashboards That Deliver: How to Design, Develop, and Deploy Dashboards That Work* teaches you a complete process of dashboard creation from the initial spark through discovery and prototyping to release and maintenance. Its guidance addresses the human and social factors in making successful dashboards. You'll learn how to apply the process whether you're a sole data analyst or the head of business intelligence in a large enterprise. Also included are over a dozen detailed chapters featuring real-world dashboards from different industries: healthcare, transportation, etc., departments: finance, marketing, human resources, and platforms: print, desktop, cellphone, etc. There are dashboards designed for different audiences, including one that has had 2.5 billion views. Each one has a unique creation story you can learn from and apply. The expert authors have a combined fifty-plus years of hands-on experience helping people in hundreds of organizations build effective dashboards. They have seen multiple successes and failures, bringing their own stories and empathy to help readers survive and thrive in a rapidly changing data landscape. You'll learn to understand the needs of your users and apply those to the language of data analytics. Create wireframes and mockups to make the most efficient user experience. Choose the appropriate data visualizations for each purpose. Release and then measure the success of your dashboard implementation. How AI might change how dashboards are developed. Whether you are a Chief Data Officer, Head of Business Intelligence, or a data analyst, this book will help you succeed in sharing actionable data-informed insights.
