including current problems and potential solutions *American Book Publishing Record* ,1998 *The (Dis)Information Age: From Post-Truth to Post-Postmodernism* Jonathan Austad,2025-01-07 There has yet to be a strong consensus regarding when and if postmodernism ended As such there is no agreement about the new age s name origins or tenets Nealson s Post Postmodernism or The Cultural Logic of Just in Time Capitalism leaves out the impact of the internet and social media Other books fail to explore post postmodernism within a larger social political framework and do not examine the cultural trends that have responded to such forces This book undertakes these complexities by examining the interplay between the sociohistorical events and visual culture of the last two decades and posits that postmodernism ended with the terror attacks on September 11 2001 Few events have such a tremendous impact on the collective consciousness that they cause immense social political and cultural changes but the terror attacks marked the beginning of a new era filled with greater anxiety and uncertainty The Bush Administration used news outlets to promote a false narrative and mislead the public manipulating information to further its agenda and altering the nature and efficacy of mass media and ultimately launching society into an age of disinformation The Dis Information Age is comprised of two main phenomena post truth and post postmodernism Truth and reality have become increasingly difficult to ascertain in this post truth world and created increased skepticism towards those in the government and media The rise of the internet and social media has exacerbated this trend by individualizing facts and data further fragmenting society along ideological lines The result is people share fewer common ideas than in previous eras and are no longer living in a shared reality Post postmodernism on the other hand is a cultural movement that has responded to post truth s weaponization misuse and individualization of information Artists of post postmodernism seek greater connectivity and common ground to combat individualized information and ideological warfare To them truth resides in the collective This study examines the intricate relationship between recent socio historic events and cultural manifestations that respond to them to better understand the world in which we live *Subject Guide to Books in Print* ,1997 *Subject Guide to Children's Books in Print 1997* Bowker Editorial Staff,R R Bowker Publishing,1996-09

Kienlin,2020-11-30 Deeply stratified settlements are a distinctive site type featuring prominently in diverse later prehistoric landscapes of the Old World Their massive materiality has attracted the curiosity of lay people and archaeologists alike Nowadays a wide variety of archaeological projects are tracking the lifestyles and social practices that led to the building up of such superimposed artificial hills However prehistoric tell dwelling communities are too often approached from narrow local perspectives or discussed within strict time and culture specific debates There is a great potential to learn from such ubiquitous archaeological manifestations as the physical outcome of cross cutting dynamics and comparable underlying forces irrespective of time and space This volume tackles tells and tell like sites as a transversal phenomenon whose commonalities and divergences are poorly understood yet may benefit from cross cultural comparison Thus the book intends to assemble a representative range of ongoing theory and science based fieldwork projects targeting this kind of sites With the aim of encompassing a variety of social and material dynamics the volume s scope is diachronic from the Earliest Neolithic up to the Iron Age and covers a very large region from Iberia in Western Europe to Syria in the Middle East The core of the volume comprises a selection of the most remarkable contributions to the session with a similar title celebrated in the European Association of Archaeologists Annual Meeting held at Barcelona in 2018 In addition the book includes invited chapters to round out underrepresented areas and periods in the EAA session with relevant research programmes in the Old World To accomplish such a cross cultural course the book takes a case based approach with contributions disparate both in their theoretical foundations from household archaeology social agency and formation theory and their research strategies including geophysical survey microarchaeology and high resolution excavation and dating **Paperbound Books in Print**
