Inventing the Victorians Matthew Sweet, 2014-06-03 Suppose that everything we think we know about the Victorians is wrong So begins *Inventing the Victorians* by Matthew Sweet a compact and mind bending whirlwind tour through the soul of the nineteenth century and a round debunking of our assumptions about it The Victorians have been victims of the enormous condescension of posterity in the historian E P Thompson s phrase Locked in the drawing room theirs was an age when supposedly existence was stultifying dank and over furnished and when behavior conformed so rigorously to proprieties that the repressed results put Freud into business We think we have the Victorians pegged as self righteous imperialist racist materialist hypocritical and worst of all earnest Oh how wrong we are argues Matthew Sweet in this highly entertaining provocative and illuminating look at our great and great great grandparents One hundred years after Queen Victoria s death Sweet forces us to think again about her century entombed in our minds by Dickens the Elephant Man Sweeney Todd and by images of unfettered capitalism and grinding poverty Sweet believes not only that we re wrong about the Victorians but profoundly indebted to them In ways we have been slow to acknowledge their age and our own remain closely intertwined The Victorians invented the theme park the shopping mall the movies the penny arcade the roller coaster the crime novel and the sensational newspaper story Sweet also argues that our twenty first century smugness about how far we have evolved is misplaced The Victorians were less racist than we are less religious less violent and less intolerant Far from being an outcast Oscar Wilde was a fairly typical Victorian man the love that dared not speak its name was declared itself fairly openly In 1868 the first international cricket match was played between an English team and an Australian team composed entirely of aborigines The Victorians loved sensation novelty scandal weekend getaways and the latest conveniences by 1869 there were image capable telegraphs in 1873 a store had a machine that dispensed milk to after hours shoppers Does all this sound familiar As Sweet proves in this fascinating eye opening book the reflection we find in the mirror of the nineteenth century is our own We inhabit buildings built by the Victorians some of us use their sewer system and ride on the railways they built We dismiss them because they are the age against whom we have defined our own In brilliant style *Inventing the Victorians* shows how much we have been missing *The Rough Guide to Rock* Peter Buckley, 2003 Compiles career biographies of over 1 200 artists and rock music reviews written by fans covering every phase
