Teaching TV Production in a Digital World Robert Kenny, 2001. Here's an exciting alternative approach to teaching first year television production to high school students. A combination of class instruction and independent video action projects prepares students for a year end video competition. The projects are based on the concept of thematic mapping and borrow knowledge from other academic subject areas to teach media and visual literacy, broadcast history, video production skills and multimedia animation. The instructor manual is supplemented by a student workbook which introduces students to instructional information through fill in the blanks, questioning. The workbooks also contain checklists and background information to aid students in completing the projects. *Resources in Education*, 1998. **Library Media Connection**, 2000. The Teacher's Guide to Media Literacy Cyndy Scheibe, Faith Rogow, 2012. A Deeper Sense of Literacy is the first book to suggest that media literacy is both a content area and an approach to teaching that can be integrated into any subject area. It combines theory and practical application in a way that addresses the most important questions related to media literacy in education today: what is it? why is it important? how can you teach it across a wide range of curriculum areas and grade levels and does it work? Rather than focusing on how to teach media literacy, Scheibe and Rogow focus on actually using media literacy to teach lessons across the content areas. *Documentation Abstracts*, 1984. **Information and Behavior** Brent D. Ruben, 1985. **Encyclopedia of Body Image and Human Appearance**, 2012-04-11.
