

DIGITAL LITERACY

INFORMATION LITERACY

Digital literacy is part of media literacy. They're both included in the idea of 'information literacy' which is the ability to effectively find, identify, evaluate and use information. Information and media literacy enables people to share and make informed judgments as users of information and media, as well as to become a skilled creators and producers of information and media messages in their own right.

Young People in a Digitalised World Europarat, 2018 Youth participation in the digitalised world is nowadays a topic of high interest in the public sphere The authors of this publication aim to bring new perspectives and varied visions to the key questions of understanding how young people interact with all the opportunities the digital space has to offer and how they can use this space for causes relevant not only for themselves but also for the democratisation of the societies in which they live By doing so the authors strive to build knowledge on this topic illustrating how the digitalisation of contemporary European societies simultaneously offers significant opportunities and poses considerable challenges Publisher s description

Contemporary Poetics Louis Armand, 2007-11-20 Exploring the boundaries of one of the most contested fields of literary study a field that in fact shares territory with philology aesthetics cultural theory philosophy and even cybernetics this volume gathers a body of critical writings that taken together broadly delineate a possible poetics of the contemporary In these essays the most interesting and distinguished theorists in the field renegotiate the contours of what might constitute contemporary poetics ranging from the historical advent of concrete poetry to the current technopoetics of cyberspace Concerned with a poetics that extends beyond our own time as a mere marker of present day literary activity their work addresses the limits of a writing practice beginning with St phane Mallarm in the late nineteenth century that engages concretely with what it means to be contemporary Charles Bernstein s Swiftian satire of generative poetics and the textual apparatus together with Marjorie Perloff s critical historical treatment of writing after

Bernstein and other proponents of language poetry provides an itinerary of contemporary poetics in terms of both theory and practice The other essays consider precursors recognizable figures within the histories or prehistories of contemporary poetics from Kafka and Joyce to Wallace Stevens and Kathy Acker conjunctions in which more strictly theoretical and poetical texts enact a concerted engagement with rhetoric prosody and the vicissitudes of intelligibility cursors which points to the open possibilities of invention from Augusto de Campos s concrete poetics to the codework of Alan Sondheim and transpositions defining the limits of poetic invention by way of technology
