## Matter Mind:

**Inside Reality** Dr. Thomas Stark, There are those such as scientists who see only the outside of reality its appearance its surface its phenomenal aspect They are blind to the inside the substance the foundation the noumenal aspect They dismiss it as non existent or illusion or epiphenomenon Scientists are those that believe that phenomena have no underlying noumena What you see is what you get Seeing is believing Everything is appearance Nothing is concealed There are no hidden variables and no unobservables The scientific method says Observe That works only if everything is observable If there are foundational unobservables science is catastrophically wrong and has cut itself off from the truth The only truth it can furnish is that of surfaces and appearances with no substance Those who truly want to understand reality must become masters of both perspectives inside and outside noumenon and phenomenon and see how they relate communicate and interact

*Christology and Myth in the New Testament* Geraint Vaughan Jones,2025-03-01 Christology and Myth in the New Testament 1956 enquires into the extent and origin of the mythological language and ideas underlying the Christology of the New Testament It examines the demythologizing principles and refers to the existential method of reinterpreting those New Testament concepts which are bound up with Hellenistic thought forms and the

cosmology of the ancient world while also exploring other philosophical and theological interpretations It considers that the mythical Christology of the New Testament writers should be understood poetically and metaphorically rather than as consisting of objective statements about Jesus and his place in creation The final section of the book is a defence of the retention of mythical concepts and language as psychologically and theologically necessary expressions of a religious faith which cannot be adequately expressed in merely propositional form
