

SOCIAL MEDIA LITERACY

WHAT AND WHERE ARE MIDDLE SCHOOLERS LEARNING ABOUT SOCIAL MEDIA?

In a mixed method study, we surveyed **229 school staff members** and **419 parents** from 4 school districts in the Northeast and interviewed 30 parents and 6 school staff members.

Most frequently discussed topics amongst educators:

49% of educators discussed how student technology use **interferes with sleep**

46% of educators discussed students **craving constant access to devices**

43% of educators discussed considering **how online posts affect others**

Most frequently discussed topics amongst parents:

With 92% of parents reporting discussing **stranger danger**, it was the most popular topic from our survey

90% of parents discuss **cyberbullying** and mean online behaviors

85% of parents warned their children of being influenced by **peer-induced risky behaviors** online (vaping, skipping school, alcohol, etc.)

FINDINGS

- Educators focused on the prevention of their students being victimized by their own addictive and self-regulatory behaviors while parents focused more on preventing their teens from unsafe or risk-taking online peer influences.
- The fact that educators and parents **focus on different aspects** of the digital wellbeing of the child could be turned into a strength of a home-school partnership that is not competing but **complementary** with one another.

World trends in freedom of expression and media development

UNESCO, University of Oxford (UK), 2018-02-05 In the face of such challenges, this new volume in the World Trends in Freedom of Expression and Media Development series offers a critical analysis of new trends in media freedom, pluralism, independence and the safety of journalists.

Global Trends in Media Education Tony Lavender, Birgitte Tufte, Dafna Lemish, 2003 Over the last decades, Media Education has gradually obtained an educational status in many countries throughout the world, although few countries have actually incorporated this subject in their formal school curricula. Where Media Education is taught today, it is principally carried out using a relaxed, pluralistic and a cross or multidisciplinary approach. This book sets out to explore this new approach to the subject via chapters that are representative of ongoing work by leading Media Education researchers in nine different countries and from all five continents. Media Education is continually evolving and the individual chapters indicate that the passion for the subject is global, while the actual translations of practices and policies are very much local. The book expands the debate about Media Education beyond the traditions and interests of one part of the world to encompass the needs of the rest.
