

# Making Fractions

## Instructions

Pages 1-4

1. Cut out the fraction plates, 4 different fraction pieces and the fraction cards.
2. Host student teams with no empty fraction plates.
3. Place the fraction cards face down.
4. Students take turns flipping a fraction card over and then state the fraction they have flipped using the different fraction pieces on their plate.
5. The winner is the first student to make a whole on their fraction plate.

Remember: towards the end, if you flip a fraction that is too big to fit in the space you have left, you may have to keep going until you find the correct fraction to fit.

**Competence in Science Education** Kristy L. Daniel,2018-06-20 This book covers the current state of thinking and what it means to have a framework of representational competence and how such theory can be used to shape our understanding of the use of representations in science education assessment and instruction Currently there is not a consensus in science education regarding representational competence as a unified theoretical framework There are multiple theories of representational competence in the literature that use differing perspectives on what competence means and entails Furthermore dependent largely on the discipline language discrepancies cause a potential barrier for merging ideas and pushing forward in this area While a single unified theory may not be a realistic goal there needs to be strides taken toward working as a unified research community to better investigate and interpret representational competence An objective of this book is to initiate thinking about a representational competence theoretical framework across science educators learning scientists practitioners and scientists As such we have divided the chapters into three major themes to help push our thinking forward presenting current thinking about representational competence in science education assessing representational competence within learners and using our understandings to structure instruction     Arithmetic: a Manual of 1000
