Making Of Waltons Lives:

Walton's Lives Jessica Martin, 2001 This book argues that Walton's practice in his *Lives* was crucial in shaping modern expectations of biography including issues such as how it should be organized how it should treat evidence how seriously it should regard narrative coherence and most particularly in the modern expectation of an intimate relationship between author reader and subject Martin considers Walton's biographical ethics in relation to the tributary genres influencing him as they emerged from post Reformation commendatory practice after 1546 most particularly classical funeral oratory and the emergent Protestant funeral sermon the Plutarchan parallel the didactic Character martyrological narrative and finally Walton's direct model the exemplary biographical commemoration of the conformist minister The Oxford History of Life Writing: Volume 2. Early Modern Alan Stewart, 2018-05-04 The Oxford History of Life Writing Volume 2 Early Modern explores life writing in England between 1500 and 1700 and argues that this was a period which saw remarkable innovations in biography autobiography and diary keeping that laid the foundations for our modern life writing The challenges wrought by the upheavals and the sixteenth century English Reformation and seventeenth century Civil Wars moulded British and early American life writing in unique and lasting ways While classical and medieval models continued to exercise considerable influence new forms began to challenge them The English Reformation banished the saints lives that dominated the writings of medieval Catholicism only to replace them with new lives of Protestant martyrs Novel forms of self accounting came into existence from the daily moral self accounting dictated by strands of Calvinism to the daily financial self accounting modelled on the new double entry book keeping This volume shows how the most ostensibly private journals were circulated to build godly communities how women found new modes of recording and understanding their disrupted lives how men started to compartmentalize their lives for public and private consumption The volume doesn't intend to present a strict chronological progression from the medieval to the modern nor to suggest the triumphant rise of the fact based historical biography Instead it portrays early modern England as a site of multiple sometimes conflicting possibilities for life writing all of which have something to teach us about how the period understood both the concept of a life and what it meant to write a life *The complete angler, by I. Walton and C. Cotton. With lives, and notes, by sir J. Hawkins. Ed. by J. Rennie* Izaak Walton, 1836 **Environment, Society, and The Compleat Angler** Marjorie Swann, 2023-08-31 First published in 1653 The Compleat Angler is one of the most influential environmental texts ever written Addressing a politically and religiously polarized nation devastated by warfare disease ecological degradation and climate change Izaak Walton's famous fishing treatise stages a radical thought experiment how might humanity's enhanced relationship with the natural world generate a new kind of sustaining and sustainable social order beyond the traditional boundaries of the church the state and the biological family Challenging the current scholarly consensus that reads Walton's how to manual as a conservative polemic camouflaged by fishlore Marjorie Swann examines this richly complicated portrayal of the natural world through an

ecocritical lens and explores other neglected aspects of Walton's writings including his depictions of social hierarchy, gender, and sexuality. In the process, Swann analyzes a host of noncanonical environmental texts and provides a groundbreaking reappraisal of Charles Cotton's Part II of *The Compleat Angler*. This study extends the hydrological turn in early modern ecocriticism and demonstrates how, as a genre, angling manuals provide new insights into the environmental, cultural, social, and literary history of early modern England. Taking its place alongside landmark works of ecocriticism such as Green Shakespeare and Milton and Ecology, this fresh and timely reassessment of *The Compleat Angler* rightly ranks Izaak Walton among the most important environmental writers of the early modern era. **Reconsidering Biography** Martine Watson

Brownley, 2012. Although Sir John Hawkins's *Life of Johnson* has long been an essential source for readers interested in Samuel Johnson, for over two hundred years now Hawkins's biography has been systematically misread, misinterpreted, and misunderstood. *Reconsidering Biography* opens a long-needed critical debate on Hawkins's achievement as a biographer and, in the process, argues for important changes in prevailing scholarly views of Hawkins, Johnson, and English biography itself.
