Whatever Will Happen to the National Plan? Ralph Oppenheimer,Harold Lind,1966 *Bibliography of Studies and Reports on the District of Columbia and the Washington Metropolitan Area: Population, Economic Activities, Housing Land Use, Visitors and Tourism* United States. National Capital Planning Commission,1967 **The National Plan. Presented to Parliament by the First Secretary of State for Economic Affairs by Command of Her Majesty, September, 1965** Great Britain. Department of Economic Affairs,1965 Nostalgia and the post-war Labour Party Richard Jobson,2018-01-08 This book examines the impact that nostalgia has had on the Labour Party s political development since 1951 It argues that nostalgia has defined Labour s identity and determined the party s trajectory Nostalgia has hindered policy discussion determined the form and parameters of party modernisation shaped internal conflict and cohesion and made it difficult for the party to adjust to socioeconomic changes It has frequently left the party out of touch with the modern world In this way this study offers an assessment of Labour s failures to adapt to the changing nature of post war Britain and will be of interest to both students and academics and to those with a more general interest in Labour s history and politics *Managing the Economy, Managing the People* Jim Tomlinson,2017-09-29 This study offers a distinctive new account of British economic life

since the Second World War focussing upon the ways in which successive governments in seeking to manage the economy have sought simultaneously to manage the people to try and manage popular understanding of economic issues In doing so governments have sought not only to shape expectations for electoral purposes but to construct broader narratives about how the economy should be understood The starting point of this work is to ask why these goals have been focussed upon and differentially over time how they have been constructed to appeal to the population and insofar as this can be assessed how far the population has accepted these narratives The first half of the book analyses the development of the major narratives from the 1940s onwards addressing the notion of austerity and its particular meaning in the 1940s the rise of a narrative of economic decline from the late 1950s and the subsequent attempts to modernize the economy the attempts to roll back the state from the 1970s the impact of ideas of globalization in the 1990s and finally the way the crisis of 2008 9 onwards was constructed as a problem of debts and deficits The second part of the book focuses on four key issues in attempts to manage the people productivity the balance of payments inflation and unemployment It shows how in each case governments sought to get the populace to understand these issues in a particular light and shaped strategies to that end

The Campaign Guide Conservative and Unionist Central Office (Great Britain),1970 Northern Geographical Essays in Honour of G. H. J. Daysh George Henry John Daysh,1967 *The Banker* ,1970 Proceedings of the International Conference International Planned Parenthood Federation,1969 **Planning** ,1966 **Britain 1967-70** Business Europe,1967 *Selling Yellowstone* Mark Daniel Barringer,2002 For as long as they have existed the national parks have been the scene of some of the most intensive commercial activity in the American West *Selling Yellowstone* recounts the story of such activities in our oldest park from the 1870s through the 1960s It is the first book to examine critically the role of business in the development of America s national parks demonstrating how profit driven entrepreneurs shaped the physical landscape of what is generally perceived as unaltered wilderness Jacket
