**Political Identity in South Asia** David Taylor,Malcolm Yapp,2024-02-29 First published in 1979 Political Identity in South Asia deals with the relationship between language religion and political identity Political identity is a broader concept than that of nationalism which it embraces and the contributors are concerned with a wide range of political phenomena in South Asia Primary attention is paid to linguistic and religious factors in the making of political identities and the formulation of new political demands but the operation of these factors is seen as being conditioned and in some cases determined by grander political and economic forces Within this framework three papers are particularly concerned with Muslims in South

Asia and three with southern India where language has played an important part Two papers are studies of Bangladesh and Sri Lanka and one is concerned with tribal populations in India The volume is completed by two more general essays on the subject of political identity This book will be of interest to students of sociology history South Asian studies and ethnic studies

Black Nationalism E. U. Essien-Udom,1962 Author E U Essien Udom aims to the common conception that the Nation of Islam and by extension all Black Nationalist movements existed solely for political purposes and instead for poor urban blacks to attain a national identity a sense of ethnic consciousness and empowerment in a society that denied them these privileges

Arabs at the Crossroads Hilal Khashan,2000 This work is brave and important Dr Khashan takes the necessary scholarly risk of saying things that are unpopular in many Arab circles Calling on the Arabs to reexamine their identity is not an easy task for a resident of Beirut Jamal R Nassar Illinois State

University In this provocative study Hilal Khashan assesses Arab political experience during the 20th century He examines the rise and fall of Arab hopes for founding a territorial entity based on a unified identity focusing on important issues that contribute to the existing impasse that prevails in the Arab world These issues include the concept of Arab nationalism the seeming inability of Arab ruling elites to liberalize their societies propel economic growth and enfranchise the masses and the growth of Islamic revival movements Khashan dissects the components of the Arabs political quagmire by recognizing the nature of their identity crisis as well as its ramifications In a departure from typical academic writing he prescribes an agenda to help the Arabs deal better with the challenges of the 21st century dwelling on the need for them to respect authority reconsider their nationalistic identity define and pursue realistic objectives and commit themselves to political representation In addition his explanation of Iraq s motives when it triggered the two Gulf conflicts differs sharply from most Western accounts Khashan articulates issues that the majority of writers on Arab affairs prefer to avoid Arab intellectuals and scholars of the Middle East as well as journalists and politicians will be fascinated by this controversial book Hilal Khashan associate professor of political science at the American University of Beirut is the author of Inside the Lebanese Confessional Mind and Partner or Pariah Attitudes Toward Israel in Syria Lebanon and Jordan and has published in such journals as Orbis Middle East Quarterly and Arab Studies Quarterly

### **African American Coping in the Political Sphere**

Jas M. Sullivan,Moriah Harman,2023-10-01 Psychosocial stressors are a part of the human condition Individuals experience a myriad of stressors in their everyday lives and while many people experience some of the same types of stressors responses and reactions to stressful life events interactions and situations often vary Research has shown that these stressors often have negative effects on physical and mental health outcomes among others Thus the way one copes with psychosocial stressors is important for explaining human behavior and variations across and within certain groups For African Americans there are added stressors that impact daily functioning due to no fault of their own These stressors include but are not limited to discrimination microaggressions and police brutality as well as income health and education inequalities Inspired by the John Henryism hypothesis and more broadly the research on John Henryism African American Coping in the Political Sphere explores the influence coping has on African Americans political attitudes and behaviors Jas M Sullivan and Moriah Harman reveal that coping plays a role in political outcomes just as it does in social economic psychological and health outcomes Consequently coping offers insight into why some individuals believe and behave in the ways that they do in the political sphere

### **Legitimizing Nationalism**

Katie L Stewart,2024 Russia is a large diverse and complicated country whose far flung regions maintain their own histories and cultures even as President Vladimir Putin increases his political control Powerful autocratic regimes still need to establish their legitimacy in Russia as elsewhere developing a compelling national narrative and building a sense of pride and belonging in a national identity is key to maintaining a united nation It can also legitimate political power when leaders present themselves as the nation s champions Putin s hold thus requires effective

nation building propagating the ever evolving and often contested story of who exactly is Russian and what exactly that means Even in the current autocratic system however Russia's multiethnic nature and fractured political history mean that not all political symbols work the same way everywhere not every story finds the same audience in the same way The message may emanate from Moscow but regional actors including local governments civic organizations and cultural institutions have some agency in how they spread the message some regionalization of identity work is permitted to ensure that Russian national symbols and narratives resonate with people and to avoid protest This book investigates how nation building works on the ground through close studies of three of Russia's ethnic republics Karelia Tatarstan and Buryatia Understanding how the project of legitimating nationalism in support of a unified country and specifically Putin's regime works in practice offers crucial context in understanding the shape and story of contemporary Russia     **Changing**

**Scotland** David McCrone,2025-10-31 Twenty five years of a Scottish parliament presents the opportunity to take stock of a new Scotland to be seen in the context of wider social political and cultural changes occurring over the previous fifty years The book draws upon a wealth of empirical material to enable us to read this changing Scotland The time frame is crucial We can now see that the transformative moment lay in the long decade of the late 1960s and 1970s when social economic and political processes began to transform Scotland in a radical way Fifty years on we live in a quite different country Scotland sits at the nexus of three key concepts civil society nation and state This book tells that story explains how it came about and its legacy in understanding this new Scotland     *Deliberative Democracy and Divided Societies* Ian O'Flynn,2006 In a world where the impact of internal conflicts is spreading ever wider there is a real need to rethink how democratic ideals and institutions can best be implemented This book responds to this challenge by showing that deliberative democracy has crucial but largely untapped normative implications for societies deeply divided along ethnic lines Its central claim is that deliberative norms and procedures can enable the citizens of such societies to build and sustain a stronger sense of common national identity More specifically it argues that the deliberative requirements of reciprocity and publicity can enable citizens and representatives to strike an appropriate balance between the need to recognise competing ethnic identities and the need to develop a common civic identity centred on the institutions of the state Although the book is primarily normative it supports its claims with a broad range of empirical examples drawn from cases such as Bosnia and Herzegovina Lebanon Macedonia Northern Ireland and South Africa It also considers the normative implications of deliberative democracy for questions of institutional design It argues that power sharing institutions should be conceived in a way that allows citizens as much freedom as possible to shape their own relation to the polity Crucially this freedom can enable them to reconstruct their relationship to each other and to the state in ways that ultimately strengthen and sustain the transition from ethnic conflict to democracy     *Education and Reorientation for Good Citizenship in Nation Building* Richard I. Okorodudu,1996

**Europe's Contending Identities** Andrew C. Gould,Anthony M. Messina,2014-02-17 How European are Europeans Is it

possible to balance national citizenship with belonging to the European Union overall Do feelings of citizenship and belonging respond to affiliations to regions religions or reactionary politics Unlike previous volumes about identity in Europe this book offers a more comprehensive view of the range of identities and new arguments about the political processes that shape identity formation The founders of European integration promised an ever closer union Nationalists respond that a people should control their own destiny This book investigates who is winning the debate The chapters show that attitudes toward broader political communities are changing that new ideas are gaining ground and that long standing trends are possibly reversing course     **Political Action and Social Identity** Gareth Rees, 1985
