Native Voices:

Native Voices Richard A. Grounds, George E. Tinker, David Eugene Wilkins, 2003 Native peoples of North America still face an uncertain future due to their unstable political, legal and economic positions. Views of their predicament continue to be dominated by non-Indian writers. In response, a dozen Native American writers here reclaim their rightful role as influential voices in debates about Native communities. These scholars examine crucial issues of politics, law and religion in the context of ongoing Native American resistance to the dominant culture. They particularly show how the writings of Vine Deloria Jr. have shaped and challenged American Indian scholarship in these areas since the 1960s. They provide key insights into Deloria's thought while introducing some critical issues confronting Native nations. Collectively, these essays take up four important themes: indigenous societies as the embodiment of cultures of resistance; legal resistance to western oppression against indigenous nations; contemporary Native religious practices; and Native intellectual challenges to academia. Essays address indigenous perspectives on topics usually treated by non-Indians such as role of women in Indian society, the importance of sacred sites to American Indian religious identity and relationship of native language to indigenous autonomy. A closing essay by Deloria in vintage form reminds Native Americans of their responsibilities and obligations to one another and to past and future generations. This book argues for renewed cultivation of a Native American Studies that is more Indian centered.
